MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 3 of 1966, prepared in accordance with the Reorganization Act of 1949, as amended, and providing for reorganization of health functions of the Department of Health, Education, and Welfare.

I

Today we face new challenges and unparalleled opportunities in the field of health. Building on the progress of the past several years, we have truly begun to match the achievements of our medicine to the needs of our people.

The task ahead is immense. As a nation, we will unceasingly pursue our research and learning, our training and building, our testing and treatment. But now our concern must also turn to the organization of our Federal health programs.

As citizens we are entitled to the very best health services our resources can provide.

As taxpayers, we demand the most efficient and economic health organizations that can be devised.

I ask the Congress to approve a reorganization plan to bring new strength to the administration of Federal health programs.

I propose a series of changes in the organization of the Public Health Service that will bring to all Americans a structure modern in design, more efficient in operation and better prepared to meet the great and growing needs of the future. Through such improvements we can achieve the full promise of the landmark health legislation enacted by the 89th Congress.

I do not propose these changes lightly. They follow a period of careful deliberation. For many months the Secretary of Health, Education, and Welfare, and the Surgeon General have consulted leading experts in the Nation—physicians, administrators, scientists, and public health specialists. They have confirmed my belief that modernization and reorganization of the Public Health Service are urgently required and long overdue.

II

The Public Health Service is an operating agency of the Department of Health, Education, and Welfare. It is the principal arm of the Federal Government in the field of health. Its programs are among those most vital to our well-being.

Since 1953 more than 50 new programs have been placed in the Public Health Service. Its budget over the past 12 years has increased tenfold—from $250 million to $2.4 billion.

Today the organization of the Public Health Service is clearly obsolete. The requirement that new and expanding programs be administered through an organizational structure established by law more than two decades ago stands as a major obstacle to the fulfillment of our Nation's health goals.

As presently constituted, the Public Health Service is composed of four major components:

National Institutes of Health.
Bureau of State Services.
Bureau of Medical Services.
Office of the Surgeon General.

Under present law, Public Health Service functions must be assigned only to these four components.

This structure was designed to provide separate administrative arrangements for health research, programs of State and local aid, health services, and executive staff resources. At a time when these functions could be neatly compartmentalized, the structure was adequate. But today the situation is different.

Under recent legislation many new programs provide for an integrated attack on specific disease problems or health hazards in the environment by combining health services, State and local aid, and research. Each new program of this type necessarily is assigned to one of the three operating components of the Public Health Service. Yet none of these components is intended to administer programs involving such a variety of approaches.

Our health problems are difficult enough without having them complicated by outmoded organizational arrangements.

But if we merely take the step of integrating the four agencies within the Public Health Service we will not go far enough. More is required.

III

The Department of Health, Education, and Welfare performs major health or health-related functions which are not carried out through the Public Health Service, although they are closely related to its functions. Among these are:

Health insurance for the aged, administered through the Social Security Administration;

Medical assistance for the needy, administered through the Welfare Administration;

Regulation of the manufacture, labeling, and distribution of drugs, carried out through the Food and Drug Administration; and

Grants-in-aid to States for vocational rehabilitation of the handicapped, administered by the Vocational Rehabilitation Administration.

Expenditures for health and health-related programs of the Department administered outside the Public Health Service have increased from $44 million in 1953 to an estimated $5.4 billion in 1967.

As the head of the Department, the Secretary of Health, Education, and Welfare is responsible for the Administration and coordination of all the Department's health functions. He has clear authority over the programs I have just mentioned.

But today he lacks this essential authority over the Public Health Service. The functions of that agency are vested in the Surgeon General and not in the Secretary.

This diffusion of responsibility is unsound and unwise.

To secure the highest possible level of health services for the American people the Secretary of Health, Education, and Welfare must be given the authority to establish—and modify as necessary—the organizational structure for Public Health Service programs.

He must also have the authority to coordinate health functions throughout the Department. The reorganization plan I propose will accomplish these purposes. It will provide the Secretary with the flexibility to create new and responsive organizational arrangements to keep pace with the changing and dynamic nature of our health programs.

My views in this respect follow a basic principle of good government set by the Hoover Commission in 1949 when it recommended that ''the Department head should be given authority to determine the organization within his Department.''

IV

In summary, the reorganization plan would:

Transfer to the Secretary of Health, Education, and Welfare the functions now vested in the Surgeon General of the Public Health Service and in its various subordinate units (this transfer will not affect certain statutory advisory bodies such as the National Advisory Cancer and Heart Councils);

Abolish the four principal statutory components of the Public Health Service, including the offices held by their heads (the Bureau of Medical Services, the Bureau of State Services, the National Institutes of Health exclusive of its several research institutes such as the National Cancer and Heart Institutes, and the Office of the Surgeon General); and

Authorize the Secretary to assign the functions transferred to him by the plan to officials and entities of the Public Health Service and to other agencies of the Department as he deems appropriate.

Thus, the Secretary would be—

Enabled to assure that all health functions of the Department are carried out as effectively and economically as possible;

Given authority commensurate with his responsibility; and

Made responsible in fact for matters for which he is now, in any case, held accountable by the President, the Congress, and the people.

V

I have found, after investigation, that each reorganization included in the accompanying reorganization plan is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949, as amended.

Should the reorganizations in the accompanying reorganization plan take effect, they will make possible more effective and efficient administration of the affected health programs. It is, however, not practicable at this time to itemize the reductions in expenditures which may result.

I strongly recommend that the Congress allow the reorganization plan to become effective.

LYNDON B. JOHNSON.

THE WHITE HOUSE, April 25, 1966.

1948—Act June 16, 1948, substituted ''National Institutes of Health'' for ''National Institute of Health'' in cl. (2).

§ 209. Appointment of personnel

Reserve commissions shall be for an indefinite period and may be terminated at any time, as the President may direct.

(3) No individual who has attained the age of forty-four shall be appointed to the Regular Corps, or called to active duty in the Reserve Corps for a period in excess of one year, unless (A) he has had a number of years of active service (as defined in section 212(d) of this title) equal to the number of years by which his age exceeds forty-four, or (B) the Surgeon General determines that he possesses exceptional qualifications, not readily available elsewhere in the Commissioned Corps of the Public Health Service, for the performance of special duties with the Service, or (C) in the case of an officer of the Reserve Corps, the Commissioned Corps of the Service has been declared by the President to be a military service.

In determining the number of appointments authorized by this subsection an appointment shall be deemed to be made in the fiscal year in which the nomination is transmitted by the President to the Senate.

(2) In addition to the number of original appointments to the Regular Corps authorized by paragraph (1) to be made to grades above that of senior assistant, original appointments authorized to be made to the Regular Corps in any year may be made to grades above that of senior assistant, but not above that of director, in the case of any individual who—

(4) For purposes of promotion, any person whose original appointment is to the assistant grade in the Regular Corps shall be considered as having had on the date of appointment service equal to his total active service in the Reserve Corps in and above the assistant grade.

(e) Reappointment; credit for service

(1) A former officer of the Regular Corps may, if application for appointment is made within two years after the date of the termination of

his prior commission in the Regular Corps, be reappointed to the Regular Corps without examination, except as the Surgeon General may otherwise prescribe, and without regard to the numerical limitations of subsection (b) of this section.

(2) Reappointments pursuant to this subsection may be made to the permanent grade held by the former officer at the time of the termination of his prior commission, or to the next higher grade if such officer meets the eligibility requirements prescribed by regulation for original appointment to such higher grade. For purposes of pay, promotion, and seniority in grade, such reappointed officer shall receive the credits for service to which he would be entitled if such appointment were an original appointment, but in no event less than the credits he held at the time his prior commission was terminated, except that if such officer is reappointed to the next higher grade he shall receive no credit for seniority in grade.

REFERENCES IN TEXT

The civil-service laws, referred to in subsecs. (f), (g), and (i), are set out in Title 5, Government Organization and Employees. See, particularly, section 3301 et seq. of Title 5.

CODIFICATION

In subsec. (f), the words ''and their compensation may be fixed without regard to the Classification Act of 1923, as amended'', and in subsec. (g), the words ''and compensated without regard to the Classification Act of 1923, as amended'' were omitted as obsolete. Sections 1202 and 1204 of the Classification Act of 1949, 63 Stat. 972, 973, repealed the 1923 Act and all laws or parts of laws inconsistent with the 1949 Act. While section 1106(a) of the 1949 Act provided that references in other laws to the 1923 Act should be held and considered to mean the 1949 Act, it did not have the effect of continuing the exceptions contained in subsecs. (f) and (g) because of section 1106(b) which provided that the application of the 1949 Act to any position, officer, or employee shall not be affected by section 1106(a). The Classification Act of 1949 was repealed by Pub. L. 89–554, Sept. 6, 1966, § 8(a), 80 Stat. 632 (of which section 1 revised and enacted Title 5, Government Organization and Employees, into law). Section 5102 of Title 5 contains the applicability provisions of the 1949 Act, and section 5103 of Title 5 authorizes the Office of Personnel Management to determine the applicability to specific positions and employees.

In subsec. (h), the references to subsections (f) and (g) of this section were, in the original, references to subsections (e) and (f) and were changed to reflect the probable intent of Congress.

§ 210b. Professional categories

(a) Division of corps; basis of categories

For the purpose of establishing eligibility of officers of the Regular Corps for promotions, the Surgeon General shall by regulation divide the corps into professional categories. Each category shall, as far as practicable, be based upon one of the subjects of examination set forth in section 209(a)(1) of this title or upon a subdivision of such subject, and the categories shall be designed to group officers by fields of training in such manner that officers in any one grade in any one category will be available for similar duty in the discharge of the several functions of the Service.

(b) Assignment of officers

Each officer of the Regular Corps on active duty shall, on the basis of his training and experience, be assigned by the Surgeon General to one of the categories established by regulations under subsection (a) of this section. Except upon amendment of such regulations, no assignment so made shall be changed unless the Surgeon General finds (1) that the original assignment was erroneous, or (2) that the officer is equally well qualified to serve in another category to which he has requested to be transferred, and that such transfer is in the interests of the Service.

(c) Maximum number of officers in each category

Within the limits fixed by the Secretary in regulations under section 207(d) of this title for any fiscal year, the Surgeon General shall determine for each category in the Regular Corps the maximum number of officers authorized to be in each of the grades from the warrant officer (W–1) grade to the director grade, inclusive.

(d) Vacancies in grade for purposes of promotion

The excess of the number so fixed for any grade in any category over the number of officers of the Regular Corps on active duty in such grade in such category (including in the case of the director grade, officers holding such grade in accordance with section 207(c) of this title) shall for the purpose of promotions constitute vacancies in such grade in such category. For purposes of this subsection, an officer who has been temporarily promoted or who is temporarily holding the grade of director in accordance with section 207(c) of this title shall be deemed to hold the grade to which so promoted or which he is temporarily holding; but while he holds such promotion or grade, and while any officer is temporarily assigned to a position pursuant to section 206(c) of this title, the number fixed under subsection (c) of this section for the grade of his permanent rank shall be reduced by one.

(e) Absence of vacancy in grade as affecting promotion

The absence of a vacancy in a grade in a category shall not prevent an appointment to such grade pursuant to section 209 of this title, a permanent length of service promotion, or the recall of a retired officer to active duty; but the making of such an appointment, promotion, or recall shall be deemed to fill a vacancy if one exists.

(f) Vacancy in grade as affecting maximum number for each category

Whenever a vacancy exists in any grade in a category the Surgeon General may increase by one the number fixed by him under subsection (c) of this section for the next lower grade in the same category, without regard to the numbers fixed in regulations under section 207(d) of this title; and in that event the vacancy in the higher grade shall not be filled except by a permanent promotion, and upon the making of such promotion the number for the next lower grade shall be reduced by one.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 211 of this title.

§ 211. Promotion of commissioned officers

(a) Permanent or temporary promotions; examination

Promotions of officers of the Regular Corps to any grade up to and including the director grade shall be either permanent promotions based on length of service, other permanent promotions to fill vacancies, or temporary promotions. Permanent promotions shall be made by the President, by and with the advice and consent of the Senate, and temporary promotions shall be

made by the President. Each permanent promotion shall be to the next higher grade, and shall be made only after examination given in accordance with regulations of the President.

(b) Promotion to certain grades only to fill vacancies; regulations; "restricted grade" defined

The President may by regulation provide that in a specified professional category permanent promotions to the senior grade, or to both the full grade and the senior grade, shall be made only if there are vacancies in such grade. A grade in any category with respect to which such regulations have been issued is referred to in this section as a ''restricted grade''.

(c) Examinations

Examinations to determine qualification for permanent promotions may be either noncompetitive or competitive, as the Surgeon General shall in each case determine; except that examinations for promotions to the assistant or senior assistant grade shall in all cases be noncompetitive. The officers to be examined shall be selected by the Surgeon General from the professional category, and in the order of seniority in the grade, from which promotion is to be recommended. In the case of a competitive examination the Surgeon General shall determine in advance of the examination the number (which may be one or more) of officers who, after passing the examination, will be recommended to the President for promotion; but if the examination is one for promotions based on length of service, or is one for promotions to fill vacancies other than vacancies in the director grade or in a restricted grade, such number shall not be less than 80 per centum of the number of officers to be examined.

(d) Permanent promotions to qualified officers on length of service

Officers of the Regular Corps, found pursuant to subsection (c) of this section to be qualified, shall be given permanent promotions based on length of service, as follows:

(1) Officers in the warrant officer (W–1) grade, chief warrant officer (W–2) grade, chief warrant officer (W–3) grade, chief warrant officer (W–4) grade, and junior assistant grade shall be promoted at such times as may be prescribed in regulations of the President.

(2) Officers with permanent rank in the assistant grade, the senior assistant grade, and the full grade shall (except as provided in regulations under subsection (b) of this section) be promoted after completion of three, ten, and seventeen years, respectively, of service in grades above the junior assistant grade; and such promotions, when made, shall be effective, for purposes of pay and seniority in grade, as of the day following the completion of such years of service. An officer with permanent rank in the assistant, senior assistant, or full grade who has not completed such years of service shall be promoted at the same time, and his promotion shall be effective as of the same day, as any officer junior to him in the same grade in the same professional category who is promoted under this paragraph.

(e) Promotion of professional category officers to fill certain vacancies

Officers in a professional category of the Regular Corps, found pursuant to subsection (c) of this section to be qualified, may be given permanent promotions to fill any or all vacancies in such category in the senior assistant grade, the full grade, the senior grade, or the director grade; but no officer who has not had one year of service with permanent or temporary rank in the next lower grade shall be promoted to any restricted grade or to the director grade.

(f) Reexamination upon failure of promotion; effective date of promotion

If an officer who has completed the years of service required for promotion to a grade under paragraph (2) of subsection (d) of this section fails to receive such promotion, he shall (unless he has already been twice examined for promotion to such grade) be once reexamined for promotion to such grade. If he is thereupon promoted (otherwise than under subsection (e) of this section), the effective date of such promotion shall be one year later than it would have been but for such failure. Upon the effective date of any permanent promotion of such officer to such grade, he shall be considered as having had only the length of service required for such promotion which he previously failed to receive.

(g) Separation from service upon failure of promotion

If, for reasons other than physical disability, an officer of the Regular Corps in the warrant officer (W–1) grade or junior assistant grade is found pursuant to subsection (c) of this section not to be qualified for promotion he shall be separated from the Service. If, for reasons other than physical disability, an officer of the Regular Corps in the chief warrant officer (W–2), chief warrant officer (W–3), assistant, senior assistant, or full grade, after having been twice examined for promotion (other than promotion to a restricted grade), fails to be promoted—

(1) if in the chief warrant officer (W–2) or assistant grade he shall be separated from the Service and paid six months' basic pay and allowances;

(2) if in the chief warrant officer (W–3) or senior assistant grade he shall be separated from the Service and paid one year's basic pay and allowances;

(3) if in the full grade he shall be considered as not in line for promotion and shall, at such time thereafter as the Surgeon General may determine, be retired from the Service with retired pay (unless he is entitled to a greater amount by reason of another provision of law)—

(A) in the case of an officer who first became a member of a uniformed service before September 8, 1980, at the rate of 2½ percent of the retired pay base determined under section 1406(h) of title 10 for each year, not in excess of 30, of his active commissioned service in the Service; or

(B) in the case of an officer who first became a member of a uniformed service on or after September 8, 1980, at the rate determined by multiplying—

(i) the retired pay base determined under section 1407 of title 10; by

(ii) the retired pay multiplier determined under section 1409 of such title for the number of years of his active commissioned service in the Service.

(h) Separation from service upon refusal to stand examination

If an officer of the Regular Corps, eligible to take an examination for promotion, refuses to take such examination, he may be separated from the Service in accordance with regulations of the President.

(i) Review of record; separation from service

At the end of his first three years of service, the record of each officer of the Regular Corps originally appointed to the senior assistant grade or above, shall be reviewed in accordance with regulations of the President and, if found not qualified for further service, he shall be separated from the Service and paid six months' pay and allowances.

(j) Determination of order of seniority

(1) The order of seniority of officers in a grade in the Regular Corps shall be determined, subject to the provisions of paragraph (2) of this subsection, by the relative length of time spent in active service after the effective date of each such officer's original appointment or permanent promotion to that grade. When permanent promotions of two or more officers to the same grade are effective on the same day, their relative seniority shall be the same as it was in the grade from which promoted. In all other cases of original appointments or permanent promotions (or both) to the same grade effective on the same day, relative seniority shall be determined in accordance with regulations of the President.

(2) In the case of an officer originally appointed in the Regular Corps to the grade of assistant or above, his seniority in the grade to which appointed shall be determined after inclusion, as service in such grade, of any active service in such grade or in any higher grade in the Reserve Corps, but (if the appointment is to the grade of senior assistant or above) only to the extent of whichever of the following is greater: (A) His active service in such grade or any higher grade in the Reserve Corps after the first day on which, under regulations in effect on the date of his appointment to the Regular Corps, he had the training and experience necessary for such appointment, or (B) the excess of his total active service in the Reserve Corps (above the grade of junior assistant) over three years if his appointment in the Regular Corps is to the senior assistant grade, over ten years if the appointment is to the full grade, or over seventeen years if the appointment is to the senior grade.

(k) Temporary promotions; fill vacancy in higher grade; war or national emergency; selection of officers; termination of appointment

Any commissioned officer of the Regular Corps in any grade in any professional category may be recommended to the President for temporary promotion to fill a vacancy in any higher grade in such category, up to and including the director grade. In time of war, or of national emergency proclaimed by the President, any commissioned officer of the Regular Corps in any grade in any professional category may be recommended to the President for promotion to any higher grade in such category, up to and including the director grade, whether or not a vacancy exists in such grade. The selection of officers to be recommended for temporary promotions shall be made in accordance with regulations of the President. Promotion of an officer recommended pursuant to this subsection may be made without regard to length of service, without examination, and without vacating his permanent appointment, and shall carry with it the pay and allowances of the grade to which promoted. Such promotions may be terminated at any time, as may be directed by the President.

(*l*) Determination of requirements of Service by Secretary; assignment of Reserve Officers to professional categories; temporary promotions; termination of temporary promotions

Whenever the number of officers of the Regular Corps on active duty, plus the number of officers of the Reserve Corps who have been on active duty for thirty days or more, exceeds the authorized strength of the Regular Corps, the Secretary shall determine the requirements of the Service in each grade in each category, based upon the total number of officers so serving on active duty and the tasks being performed by the Service; and the Surgeon General shall thereupon assign each officer of the Reserve Corps on active duty to a professional category. If the Secretary finds that the number of officers fixed under section 210b(c) of this title for any grade and category (or the number of officers, including officers of the Reserve Corps, on active duty in such grade in such category, if such number is greater than the number fixed under section 210b(c) of this title) is insufficient to meet such requirements of the Service, officers of either the Regular Corps or the Reserve Corps may be recommended for temporary promotion to such grade in such category. Any such promotion may be terminated at any time, as may be directed by the President.

(m) Acceptance of promotion; oath and affidavit

Any officer of the Regular Corps, or any officer of the Reserve Corps on active duty, who is promoted to a higher grade shall, unless he expressly declines such promotion, be deemed for all purposes to have accepted such promotion; and shall not be required to renew his oath of office, or to execute a new affidavit as required by section 3332 of title 5.

(1) A commissioned officer of the Service shall, if he applies for retirement, be retired on or after the first day of the month following the month in which he attains the age of sixty-four years. This paragraph does not permit or require the involuntary retirement of any individual because of the age of the individual.

(2) A commissioned officer of the Service may be retired by the Secretary, and shall be retired if he applies for retirement, on the first day of any month after completion of thirty years of active service.

(3) Any commissioned officer of the Service who has had less than thirty years of active service may be retired by the Secretary, with or without application by the officer, on the first day of any month after completion of twenty or more years of active service of which not less than ten are years of active commissioned service in any of the uniformed services.

(4) Except as provided in paragraph (6), a commissioned officer retired pursuant to paragraph (1), (2), or (3) who was (in the case of an officer in the Reserve Corps) on active duty with the Service on the day preceding such retirement shall be entitled to receive retired pay at the rate of 2½ per centum of the basic pay of the highest grade held by him as such officer and in which, in the case of a temporary promotion to such grade, he has performed active duty for not less than six months, (A) for each year of active service, or (B) if it results in higher retired pay, for each of the following years:

(i) his years of active service (determined without regard to subsection (d) of this section) as a member of a uniformed service; plus

(ii) in the case of a medical or dental officer, four years and, in the case of a medical officer, who has completed one year of medical internship or the equivalent thereof, one additional year, the four years and the one year to be reduced by the period of active service performed during such officer's attendance at medical school or dental school or during his medical internship; plus

(iii) the number of years of service with which he was entitled to be credited for purposes of basic pay on May 31, 1958, or (if higher) on any date prior thereto, reduced by any such year included under clause (i) and further reduced by any such year with which he was entitled to be credited under paragraphs (7) and (8) of section 205(a) of title 37 on any date before June 1, 1958;

except that (C) in the case of any officer whose retired pay, so computed, is less than 50 per centum of such basic pay, who retires pursuant to paragraph (1) of this subsection, who has not less than twelve whole years of active service (computed without the application of subsection (e) of this section), and who does not use, for purposes of a retirement annuity under subchapter III of chapter 83 of title 5, any service which is also creditable in computing his retired pay from the Service, it shall, instead, be 50 per centum of such pay, and (D) the retired pay of an officer shall in no case be more than 75 per centum of such basic pay.

(5) With the approval of the President, a commissioned officer whose service as Surgeon General, Deputy Surgeon General, or Assistant Surgeon General has totaled four years or more and who has had not less than twenty-five years of active service in the Service may retire voluntarily at any time; and except as provided in paragraph (6), his retired pay shall be at the rate of 75 per centum of the basic pay of the highest grade held by him as such officer.

(6) The retired pay of a commissioned officer retired under this subsection who first became a member of a uniformed service after September 7, 1980, is determined by multiplying—

(A) the retired pay base determined under section 1407 of title 10; by

(B) the retired pay multiplier determined under section 1409 of such title for the number of years of service credited to the officer under paragraph (4).

(7) Retired pay computed under section 211(g)(3) of this title or under paragraph (4) or (5) of this subsection, if not a multiple of $1, shall be rounded to the next lower multiple of $1.

(b) Basic pay of highest temporary grade

For purposes of subsection (a) of this section, the basic pay of the highest grade to which a commissioned officer has received a temporary promotion means the basic pay to which he would be entitled if serving on active duty in such grade on the date of his retirement.

(c) Recall to active duty

A commissioned officer, retired for reasons other than for failure of promotion to the senior grade, may (1) if an officer of the Regular Corps or an officer of the Reserve Corps entitled to retired pay under subsection (a) of this section, be involuntarily recalled to active duty during such times as the Commissioned Corps constitutes a branch of the land or naval forces of the United States, and (2) if an officer of either the Regular or Reserve Corps, be recalled to active duty at any time with his consent.

(d) "Active service" defined

The term ''active service'', as used in subsection (a) of this section, includes:

(1) all active service in any of the uniformed services;

(2) active service with the Public Health Service, other than as a commissioned officer, which the Surgeon General determines is comparable to service performed by commissioned officers of the Service, except that, if there are more than five years of such service only the last five years thereof may be included;

(3) all active service (other than service included under the preceding provisions of this subsection) which is creditable for retirement purposes under laws governing the retirement of members of any of the uniformed services; and

(4) service performed as a member of the Senior Biomedical Research Service established by section 237 of this title, except that, if there are more than 5 years of such service, only the last 5 years thereof may be included.

(e) Crediting of part of year

For the purpose of determining the number of years by which a percentage of the basic pay of an officer is to be multiplied in computing the amount of his retired pay pursuant to section 211(g)(3) of this title or paragraph (4) of subsection (a) of this section, each full month of service that is in addition to the number of full years of service credited to an officer is counted as one-twelfth of a year and any remaining fractional part of a month is disregarded.

(f) Retirement or separation for physical disability

For purposes of retirement or separation for physical disability under chapter 61 of title 10, a commissioned officer of the Service shall be credited, in addition to the service described in section 1208(a)(2) of that title, with active service with the Public Health Service, other than as a commissioned officer, which the Surgeon General determines is comparable to service performed by commissioned officers of the Service, except that, if there are more than five years of such service, only the last five years thereof may be so credited. For such purposes, such section 1208(a)(2) shall be applicable to officers of the Regular or Reserve Corps of the Service.

''(4)(A) A transferring officer shall be credited, on the day of his transfer pursuant to his election under paragraphs (1) and (2), with one hour of sick leave for each week of active service, as defined by section 211(d) of the Public Health Service Act [section 212(d) of this title].

''(B) The annual leave to the credit of a transferring officer on the day before the day of his transfer, shall, on such day of transfer, be transferred to his credit in the Agency on an adjusted basis under regulations prescribed by the Civil Service Commission. The portion of such leave, if any, that is in excess of the sum of (i) 240 hours, and (ii) the number of hours that have accrued to the credit of the transferring officer during the calendar year then current and which remain unused, shall thereafter remain to his credit until used, and shall be reduced in the manner described by subsection (c) of section 6304 of title 5, United States Code.

''(6) Each transferring officer who prior to January 1, 1958, was insured pursuant to the Federal Employees' Group Life Insurance Act of 1954, and who subsequently waived such insurance, shall be entitled to become insured under chapter 87 of title 5, United States Code, upon his transfer to the Agency regardless of age and insurability.

''(7)(A) Effective as of the date a transferring officer acquires competitive status as an employee of the Agency, there shall be considered as the civilian service of such officer for all purposes of chapter 83, title 5, United States Code, (i) his active service as defined by section 211(d) of the Public Health Service Act [section 212(d) of this title], or (ii) any period for which he would have been entitled, upon his retirement as a commissioned officer of the Public Health Service, to receive retired pay pursuant to section 211(a)(4)(B) of such Act [section 212(a)(4)(B) of this title]; however, no transferring officer may become entitled to benefits under both subchapter III of such chapter and title II of the Social Security Act [section 401 et seq. of this title] based on service as such a commissioned officer performed after 1956, but the individual (or his survivors) may irrevocably elect to waive benefit credit for the service under one such law to secure credit under the other.

''(B) A transferring officer on whose behalf a deposit is required to be made by subparagraph (C) and who, after transfer to a competitive position in the Agency under paragraphs (1) and (2), is separated from Federal service or transfers to a position not covered by subchapter III of chapter 83 of title 5, United States Code, shall not be entitled, nor shall his survivors be entitled, to a refund of any amount deposited on his behalf in accordance with this section. In the event he transfers, after transfer under paragraphs (1) and (2), to a position covered by another Government staff requirement system under which credit is allowable for service with respect to which a deposit is required under subparagraph (C), no credit shall be allowed under such subchapter III with respect to such service.

''(C) The Secretary shall deposit in the Treasury of the United States to the credit of the Civil Service Retirement and Disability Fund, on behalf of and to the credit of such transferring officer, an amount equal to that which such individual would be required to deposit in such fund to cover the years of service credited to him for purposes of his retirement under subparagraph (A), had such service been service as an employee as defined in section 8331(1) of title 5, United States Code. The amount so required to be deposited with respect to any transferring officer shall be computed on the basis of the sum of each of the amounts described in paragraph (3)(A) which were received by, or accrued to the benefit of, such officer during the years so credited. The deposits which the Secretary is required to make under this subparagraph with respect to any transferring officer shall be made within two years after the date of his transfer as provided in paragraphs (1) and (2), and the amounts due under this subparagraph shall include interest computed from the period of service credited to the date of payment in accordance with section 8334(e) of title 5, United States Code.

''(8)(A) A commissioned officer of the Public Health Service, who, upon the day before the effective date of the plan, is on active service therewith primarily assigned to the performance of functions described in paragraph (1)(A), shall, while he remains in active service, as defined by section 211(d) of the Public Health Service Act [section 212(d) of this title], be assigned to the performance of duties with the Agency, except as the Secretary and the Administrator may jointly otherwise provide.''

Subsec. (c). Pub. L. 99–660 which directed that ''section 300cc of this title'' be substituted for ''section 300aa of this title'' could not be executed because the reference in question appeared in former subsec. (c) which was repealed by Pub. L. 99–570.

1985—Subsec. (a). Pub. L. 99–158, § 3(a)(2)(A), in first sentence substituted ''National Advisory Mental Health Council and the National Advisory Council on Alcohol Abuse and Alcoholism'' for ''National Advisory Health Council, the National Advisory Mental Health Council, the National Advisory Council on Alcohol Abuse and Alcoholism, and the National Advisory Dental Research Council'', and substituted ''by the Secretary'' for ''by the Surgeon General with the approval of the Secretary of Health, Education, and Welfare''.

§ 233. Civil actions or proceedings against commissioned officers or employees

(a) Exclusiveness of remedy

The remedy against the United States provided by sections 1346(b) and 2672 of title 28, or by alternative benefits provided by the United States where the availability of such benefits precludes a remedy under section 1346(b) of title 28, for damage for personal injury, including death, resulting from the performance of medical, surgical, dental, or related functions, including the conduct of clinical studies or investigation, by any commissioned officer or employee of the Public Health Service while acting within the scope of his office or employment, shall be exclusive of any other civil action or proceeding by reason of the same subject-matter against the officer or employee (or his estate) whose act or omission gave rise to the claim.

(b) Attorney General to defend action or proceeding; delivery of process to designated official; furnishing of copies of pleading and process to United States attorney, Attorney General, and Secretary

The Attorney General shall defend any civil action or proceeding brought in any court against any person referred to in subsection (a) of this section (or his estate) for any such damage or injury. Any such person against whom such civil action or proceeding is brought shall deliver within such time after date of service or knowledge of service as determined by the Attorney General, all process served upon him or an attested true copy thereof to his immediate superior or to whomever was designated by the Secretary to receive such papers and such person shall promptly furnish copies of the pleading and process therein to the United States attorney for the district embracing the place wherein the proceeding is brought, to the Attorney General, and to the Secretary.

(c) Removal to United States district court; procedure; proceeding upon removal deemed a tort action against United States; hearing on motion to remand to determine availability of remedy against United States; remand to State court or dismissal

Upon a certification by the Attorney General that the defendant was acting in the scope of his employment at the time of the incident out of which the suit arose, any such civil action or proceeding commenced in a State court shall be removed without bond at any time before trial by the Attorney General to the district court of the United States of the district and division embracing the place wherein it is pending and the proceeding deemed a tort action brought against the United States under the provisions of title 28 and all references thereto. Should a United States district court determine on a hearing on a motion to remand held before a trial on the merit that the case so removed is one in which a remedy by suit within the meaning of subsection (a) of this section is not available against the United States, the case shall be remanded to the State Court: *Provided*, That where such a remedy is precluded because of the availability of a remedy through proceedings for compensation or other benefits from the United States as provided by any other law, the case shall be dismissed, but in the event the running of any limitation of time for commencing, or filing an application or claim in, such proceedings for compensation or other benefits shall be deemed to have been suspended during the pendency of the civil action or proceeding under this section.

(d) Compromise or settlement of claim by Attorney General

The Attorney General may compromise or settle any claim asserted in such civil action or proceeding in the manner provided in section 2677 of title 28 and with the same effect.

(e) Assault or battery

For purposes of this section, the provisions of section 2680(h) of title 28 shall not apply to assault or battery arising out of negligence in the performance of medical, surgical, dental, or related functions, including the conduct of clinical studies or investigations.

(f) Authority of Secretary or designee to hold harmless or provide liability insurance for assigned or detailed employees

The Secretary or his designee may, to the extent that he deems appropriate, hold harmless or provide liability insurance for any officer or employee of the Public Health Service for damage for personal injury, including death, negligently caused by such officer or employee while acting within the scope of his office or employment and as a result of the performance of medical, surgical, dental, or related functions, including the conduct of clinical studies or investigations, if such employee is assigned to a foreign country or detailed to a State or political subdivision thereof or to a non-profit institution, and if the circumstances are such as are likely to preclude the remedies of third persons against the United States described in section 2679(b) of title 28, for such damage or injury.

(g) Exclusivity of remedy against United States for entities deemed Public Health Service employees; subrogation of medical malpractice claims; applicable period; entity and contractor defined

(1) For purposes of this section, an entity described in paragraph (4) and any officer, employee, or contractor (subject to paragraph (5)) of such an entity who is a physician or other licensed or certified health care practitioner shall be deemed to be an employee of the Public Health Service for a calendar year that begins during a fiscal year for which a transfer of the full amount estimated under subsection (k)(1)(A) of this section was made under subsection (k)(3) of this section (subject to paragraph (3)). The remedy against the United States for an entity described in paragraph (4) and any officer, employee, or contractor (subject to paragraph (5)) of such an entity who is deemed to be an employee of the Public Health Service pursuant to

this paragraph shall be exclusive of any other civil action or proceeding to the same extent as the remedy against the United States is exclusive pursuant to subsection (a) of this section.

(2) If, with respect to an entity or person deemed to be an employee for purposes of paragraph (1), a cause of action is instituted against the United States pursuant to this section, any claim of the entity or person for benefits under an insurance policy with respect to medical malpractice relating to such cause of action shall be subrogated to the United States.

(3) This subsection shall apply with respect to a cause of action arising from an act or omission which occurs on or after January 1, 1993. This subsection shall not apply with respect to a cause of action arising from an act or omission which occurs on or after January 1, 1996.

(4) An entity described in this paragraph is a public or non-profit private entity receiving Federal funds under any of the following grant programs:

(A) Section 254b of this title (relating to grants for migrant health centers).

(B) Section 254c of this title (relating to grants for community health centers).

(C) Section 256 of this title (relating to grants for health services for the homeless).

(D) Section 256a of this title (relating to grants for health services for residents of public housing).

(5) For purposes of paragraph (1), an individual may be considered a contractor of an entity described in paragraph (4) only if—

(A) the individual normally performs on average at least 32½ hours of service per week for the entity for the period of the contract; or

(B) in the case of an individual who normally performs on average less than 32½ hours of services per week for the entity for the period of the contract and is a licensed or certified provider of obstetrical services—

(i) the individual's medical malpractice liability insurance coverage does not extend to services performed by the individual for the entity under the contract, or

(ii) the Secretary finds that patients to whom the entity furnishes services will be deprived of obstetrical services if such individual is not considered a contractor of the entity for purposes of paragraph (1).

(h) Qualifications for designation as Public Health Service employee

Notwithstanding subsection (g)(1) of this section, the Secretary, in consultation with the Attorney General, may not deem an entity described in subsection (g)(4) of this section to be an employee of the Public Health Service Act[1] for purposes of this section unless the entity—

(1) has implemented appropriate policies and procedures to reduce the risk of malpractice and the risk of lawsuits arising out of any health or health-related functions performed by the entity;

(2) has reviewed and verified the professional credentials, references, claims history, fitness, professional review organization findings, and license status of its physicians and other licensed or certified health care practitioners, and, where necessary, has obtained the permission from these individuals to gain access to this information;

(3) has no history of claims having been filed against the United States as a result of the application of this section to the entity or its officers, employees, or contractors as provided for under this section, or, if such a history exists, has fully cooperated with the Attorney General in defending against any such claims and either has taken, or will take, any necessary corrective steps to assure against such claims in the future; and

(4) has fully cooperated with the Attorney General in providing information relating to an estimate described under subsection (k) of this section.

(i) Authority of Attorney General to exclude health care professionals from coverage

(1) Notwithstanding subsection (g)(1) of this section, the Attorney General, in consultation with the Secretary, may determine, after notice and opportunity for a hearing, that an individual physician or other licensed or certified health care practitioner who is an officer, employee, or contractor of an entity described in subsection (g)(4) of this section shall not be deemed to be an employee of the Public Health Service for purposes of this section, if treating such individual as such an employee would expose the Government to an unreasonably high degree of risk of loss because such individual—

(A) does not comply with the policies and procedures that the entity has implemented pursuant to subsection (h)(1) of this section;

(B) has a history of claims filed against him or her as provided for under this section that is outside the norm for licensed or certified health care practitioners within the same specialty;

(C) refused to reasonably cooperate with the Attorney General in defending against any such claim;

(D) provided false information relevant to the individual's performance of his or her duties to the Secretary, the Attorney General, or an applicant for or recipient of funds under this chapter; or

(E) was the subject of disciplinary action taken by a State medical licensing authority or a State or national professional society.

(2) A final determination by the Attorney General under this subsection that an individual physician or other licensed or certified health care professional shall not be deemed to be an employee of the Public Health Service shall be effective upon receipt by the entity employing such individual of notice of such determination, and shall apply only to acts or omissions occurring after the date such notice is received.

(j) Remedy for denial of hospital admitting privileges to certain health care providers

In the case of a health care provider who is an officer, employee, or contractor of an entity described in subsection (g)(4) of this section, section 254h(e) of this title shall apply with respect to the provider to the same extent and in the same manner as such section applies to any member of the National Health Service Corps.

[1] So in original. The word ''Act'' probably should not appear.

(k) Estimate of annual claims by Attorney General; criteria; establishment of fund; transfer of funds to Treasury accounts

(1)(A) For each of the fiscal years 1993, 1994, and 1995, the Attorney General, in consultation with the Secretary, shall estimate by the beginning of the year (except that an estimate shall be made for fiscal year 1993 by December 31, 1992, subject to an adjustment within 90 days thereafter) the amount of all claims which are expected to arise under this section (together with related fees and expenses of witnesses) for which payment is expected to be made in accordance with section 1346 and chapter 171 of title 28 from the acts or omissions, during the calendar year that begins during that fiscal year, of entities described in subsection (g)(4) of this section and of officers, employees, or contractors (subject to subsection (g)(5) of this section) of such entities.

(B) The estimate under subparagraph (A) shall take into account—

(i) the value and frequency of all claims for damage for personal injury, including death, resulting from the performance of medical, surgical, dental, or related functions by entities described in subsection (g)(4) of this section or by officers, employees, or contractors (subject to subsection (g)(5) of this section) of such entities who are deemed to be employees of the Public Health Service under subsection (g)(1) of this section that, during the preceding 5-year period, are filed under this section or, with respect to years occurring before this subsection takes effect, are filed against persons other than the United States,

(ii) the amounts paid during that 5-year period on all claims described in clause (i), regardless of when such claims were filed, adjusted to reflect payments which would not be permitted under section 1346 and chapter 171 of title 28, and

(iii) amounts in the fund established under paragraph (2) but unspent from prior fiscal years.

(2) Subject to appropriations, for each of the fiscal years 1993, 1994, and 1995, the Secretary shall establish a fund of an amount equal to the amount estimated under paragraph (1) that is attributable to entities receiving funds under each of the grant programs described in paragraph (4) of subsection (g) of this section, but not to exceed a total of $30,000,000 for each such fiscal year. Appropriations for purposes of this paragraph shall be made separate from appropriations made for purposes of sections 254b, 254c, 256, and 256a of this title.

(3) In order for payments to be made for judgments against the United States (together with related fees and expenses of witnesses) pursuant to this section arising from the acts or omissions of entities described in subsection (g)(4) of this section and of officers, employees, or contractors (subject to subsection (g)(5) of this section) of such entities, the total amount contained within the fund established by the Secretary under paragraph (2) for a fiscal year shall be transferred not later than the December 31 that occurs during the fiscal year to the appropriate accounts in the Treasury.

In carrying out the purposes of section 241 of this title with respect to mental health—

(1) the Secretary, acting through the Director of the Center for Mental Health Services, is authorized to provide clinical training and instruction and to establish and maintain clinical traineeships (with such stipends and allowances (including travel and subsistence expenses and dependency allowances) for the trainees as the Secretary may deem necessary);

(2) the Surgeon General is authorized to make grants to State or local agencies, laboratories, and other public or nonprofit agencies and institutions, and to individuals for investigations, experiments, demonstrations, studies, and research projects with respect to the development of improved methods of diagnosing mental illness, and of care, treatment, and rehabilitation of the mentally ill, including grants to State agencies responsible for administration of State institutions for care, or care and treatment, of mentally ill persons for developing and establishing improved methods of operation and administration of such institutions.

(b) Effect of treaties and other international agreements on confidentiality

Nothing in the Single Convention on Narcotic Drugs, the Convention on Psychotropic Substances, or other treaties or international agreements shall be construed to limit, modify, or prevent the protection of the confidentiality of patient records or of the names and other identifying characteristics of research subjects as provided by any Federal, State, or local law or regulation.

(c) Grants to public and other nonprofit institutions

The Secretary may provide for training, instruction, and traineeships under subsection (a)(1) of this section through grants to public and other nonprofit institutions. Grants under paragraph (2) of subsection (a) of this section may be made only upon recommendation of the National Advisory Mental Health Council. Such grants may be paid in advance or by way of reimbursement, as may be determined by the Surgeon General; and shall be made on such conditions as the Surgeon General finds necessary.

(d) Obligatory service for traineeships

(1) Any individual who has received a clinical traineeship, in psychology, psychiatry, nursing, marital and family therapy, or social work, under subsection (a)(1) of this section that was not of a limited duration or experimental nature (as determined by the Secretary) is obligated to serve, in service determined by the Secretary to be appropriate in the light of the individual's training and experience, at the rate of one year for each year (or academic year, whichever the Secretary determines to be appropriate) of the traineeship.

and shall begin within such period after the termination of the traineeship as the Secretary may determine. In developing criteria for determining for which institutions or entities or in which areas, referred to in the preceding sentence, individuals must perform service under paragraph (1), the Secretary shall give preference to institutions, entities, or areas which in his judgment have the greatest need for personnel to perform that service. The Secretary may permit service for or in other institutions,

entities, or areas if the Secretary determines that the request for such service is supported by good cause.

(3) Any individual who fails to perform the service required under this subsection within the period prescribed by the Secretary is obligated to repay to the United States an amount equal to three times the cost of the traineeship (including stipends and allowances) plus interest at the maximum legal rate at the time of payment of the traineeship, multiplied, in any case in which the service so required has been performed in part, by the percentage which the length of the service not so performed is of the length of the service so required to be performed.

(4)(A) In the case of any individual any part of whose obligation to perform service under this subsection exists at the same time as any part of the individual's obligation to perform service under section 254m or 254n of this title (because of receipt of a scholarship under subpart II of part D of this subchapter) or the individual's obligation to perform service under section 288[1] of this title (because of receipt of a National Research Service Award), or both, the same service may not be used to any extent to meet more than one of those obligations.

(C) In any case to which subparagraph (A) is applicable, if any part of the obligation to perform service under section 288[1] of this title exists at the same time as any part of the obligation to perform service under this subsection, the manner and time of meeting each obligation shall be prescribed by the Secretary.

(5) In disseminating application forms to individuals desiring traineeships, the Secretary shall include with such forms a fair summary of the liabilities under this subsection of an individual who receives a traineeship.

(1) In order to assist the States in comprehensive and continuing planning for their current and future health needs, the Secretary is authorized during the period beginning July 1, 1966, and ending June 30, 1973, to make grants to States which have submitted, and had approved by the Secretary, State plans for comprehensive State health planning. For the purposes of carrying out this subsection, there are hereby authorized to be appropriated $2,500,000 for the fiscal year ending June 30, 1967, $7,000,000 for the fiscal year ending June 30, 1968, $10,000,000 for the fiscal year ending June 30, 1969, $15,000,000 for the fiscal year ending June 30, 1970, $15,000,000 for the fiscal year ending June 30, 1971, $17,000,000 for the fiscal year ending June 30, 1972, $20,000,000 for the fiscal year ending June 30, 1973, and $10,000,000 for the fiscal year ending June 30, 1974.

(2) In order to be approved for purposes of this subsection, a State plan for comprehensive State health planning must—

(A) designate, or provide for the establishment of, a single State agency, which may be an interdepartmental agency, as the sole agency for administering or supervising the administration of the State's health planning functions under the plan;

(B) provide for the establishment of a State health planning council, which shall include representatives of Federal, State, and local agencies (including as an ex officio member, if there is located in such State one or more hospitals or other health care facilities of the Department of Veterans Affairs, the individual whom the Secretary of Veterans Affairs shall have designated to serve on such council as the representative of the hospitals or other health care facilities of such Department which are located in such State) and nongovernmental organizations and groups concerned with health (including representation of the regional medical program or programs included in whole or in part within the State), and of consumers of health services, to advise such State agency in carrying out its functions under the plan, and a majority of the membership of such council shall consist of representatives of consumers of health services;

(C) set forth policies and procedures for the expenditure of funds under the plan, which, in the judgment of the Secretary, are designed to provide for comprehensive State planning for health services (both public and private and including home health care), including the facilities and persons required for the provision of such services, to meet the health needs of the people of the State and including environmental considerations as they relate to public health;

(D) provide for encouraging cooperative efforts among governmental or nongovernmental agencies, organizations and groups concerned with health services, facilities, or manpower, and for cooperative efforts between such agencies, organizations, and groups and similar agencies, organizations, and groups in the fields of education, welfare, and rehabilitation;

(E) contain or be supported by assurances satisfactory to the Secretary that the funds paid under this subsection will be used to supplement and, to the extent practicable, to increase the level of funds that would otherwise be made available by the State for the purpose of comprehensive health planning and not to supplant such non-Federal funds;

(F) provide such methods of administration (including methods relating to the establishment and maintenance of personnel standards on a merit basis, except that the Secretary shall exercise no authority with respect to the selection, tenure of office, and compensation of any individual employed in accordance with such methods) as are found by the Secretary to be necessary for the proper and efficient operation of the plan;

(G) provide that the State agency will make such reports, in such form and containing such information, as the Secretary may from time to time reasonably require, and will keep such records and afford such access thereto as the Secretary finds necessary to assure the correctness and verification of such reports;

(H) provide that the State agency will from time to time, but not less often than annually, review its State plan approved under this subsection and submit to the Secretary appropriate modifications thereof;

(I) effective July 1, 1968, (i) provide for assisting each health care facility in the State to develop a program for capital expenditures for replacement, modernization, and expansion which is consistent with an overall State plan developed in accordance with criteria established by the Secretary after consultation with the State which will meet the needs of the State for health care facilities, equipment, and services without duplication and otherwise in the most efficient and economical manner, and (ii) provide that the State agency furnishing such assistance will periodically review the program (developed pursuant to clause (i)) of each health care facility in the State and recommend appropriate modification thereof;

(J) provide for such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of and accounting for funds paid to the State under this subsection; and

(K) contain such additional information and assurances as the Secretary may find necessary to carry out the purposes of this subsection.

(3)(A) From the sums appropriated for such purpose for each fiscal year, the several States shall be entitled to allotments determined, in accordance with regulations, on the basis of the population and the per capita income of the respective States; except that no such allotment to any State for any fiscal year shall be less than 1 per centum of the sum appropriated for such fiscal year pursuant to paragraph (1). Any such allotment to a State for a fiscal year shall remain available for obligation by the State, in accordance with the provisions of this subsection and the State's plan approved thereunder, until the close of the succeeding fiscal year.

(B) The amount of any allotment to a State under subparagraph (A) for any fiscal year which the Secretary determines will not be required by the State, during the period for which it is available, for the purposes for which allotted shall be available for reallotment by the Secretary from time to time, on such date or dates as he may fix, to other States with respect to which such a determination has not been made, in proportion to the original allotments to such States under subparagraph (A) for such fiscal year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Secretary estimates such State needs and will be able to use during such period; and the total of such reductions shall be similarly reallotted among the States whose proportionate amounts were not so reduced. Any amount so reallotted to a State from funds appropriated pursuant to this subsection for a fiscal year shall be deemed part of its allotment under subparagraph (A) for such fiscal year.

(4) From each State's allotment for a fiscal year under this subsection, the State shall from time to time be paid the Federal share of the expenditures incurred during that year or the succeeding year pursuant to its State plan approved under this subsection. Such payments shall be made on the basis of estimates by the Secretary of the sums the State will need in order to perform the planning under its approved State plan under this subsection, but with such adjustments as may be necessary to take account of previously made underpayments or overpayments. The ''Federal share'' for any State for purposes of this subsection shall be all, or such part as the Secretary may determine, of the cost of such planning, except that in the case of the allotments for the fiscal year ending June 30, 1970, it shall not exceed 75 per centum of such cost.

(b) Project grants for areawide health planning; authorization of appropriations; prerequisites for grants; application; contents

(1)(A) The Secretary is authorized, during the period beginning July 1, 1966, and ending June 30, 1974, to make, with the approval of the State agency administering or supervising the administration of the State plan approved under subsection (a) of this section, project grants to any other public or nonprofit private agency or organization (but with appropriate representation of the interests of local government where the recipient of the grant is not a local government or combination thereof or an agency of such government or combination) to cover not to exceed 75 per centum of the costs of projects for developing (and from time to time revising) comprehensive regional, metropolitan area, or other local area plans for coordination of existing and planned health services, including the facilities and persons required for provision of such services; and including the provision of such services through home health care; except that in the case of project grants made in any State prior to July 1, 1968, approval of such State agency shall be required only if such State has such a State plan in effect at the time of such grants. No grant may be made under this subsection after June 30, 1970, to any agency or organization to develop or revise health plans for an area unless the Secretary determines that such agency or organization provides means for appropriate representation of the interests of the hospitals, other health care facilities, and practicing physicians serving such area, and the general public. For the purposes of carrying out this sub-

section, there are hereby authorized to be appropriated $5,000,000 for the fiscal year ending June 30, 1967, $7,500,000 for the fiscal year ending June 30, 1968, $10,000,000 for the fiscal year ending June 30, 1969, $15,000,000 for the fiscal year ending June 30, 1970, $20,000,000 for the fiscal year ending June 30, 1971, $30,000,000 for the fiscal year ending June 30, 1972, $40,000,000 for the fiscal year ending June 30, 1973, and $25,100,000 for the fiscal year ending June 30, 1974.

(B) Project grants may be made by the Secretary under subparagraph (A) to the State agency administering or supervising the administration of the State plan approved under subsection (a) of this section with respect to a particular region or area, but only if (i) no application for such a grant with respect to such region or area has been filed by any other agency or organization qualified to receive such a grant, and (ii) such State agency certifies, and the Secretary finds, that ample opportunity has been afforded to qualified agencies and organizations to file application for such a grant with respect to such region or area and that it is improbable that, in the foreseeable future, any agency or organization which is qualified for such a grant will file application therefor.

(2)(A) In order to be approved under this subsection, an application for a grant under this subsection must contain or be supported by reasonable assurances that there has been or will be established, in or for the area with respect to which such grant is sought, an areawide health planning council. The membership of such council shall include representatives of public, voluntary, and nonprofit private agencies, institutions, and organizations concerned with health (including representatives of the interests of local government of the regional medical program for such area, and of consumers of health services). A majority of the members of such council shall consist of representatives of consumers of health services.

(B) In addition, an application for a grant under this subsection must contain or be supported by reasonable assurances that the areawide health planning agency has made provision for assisting health care facilities in its area to develop a program for capital expenditures for replacement, modernization, and expansion which is consistent with an overall State plan which will meet the needs of the State and the area for health care facilities, equipment, and services without duplication and otherwise in the most efficient and economical manner.

CONGRESSIONAL FINDINGS AND DECLARATION

Section 201(b)(1) of Pub. L. 95–626 provided that: ''The Congress finds and declares that—

''(A) individual health status can be effectively and economically improved through an adequate investment in community public health programs and services;

''(B) the Federal Government and the States and their communities share in the financial responsibility for funding public health programs;

''(C) the Federal contribution to funds for public health programs should serve as an incentive to an additional investment by State and local governments;

''(D) existing categorical programs of Federal financial assistance to combat specific public health problems should be supplemented by a national program of stable generic support for such public health activities as the prevention and control of environmental health hazards, prevention and control of diseases, prevention and control of health problems of particularly vulnerable population groups, and development and regulation of health care facilities and health services delivery systems; and

''(E) the States and their communities, not the Federal Government, should have primary responsibility for identifying and measuring the impact of public health problems and the allocation of resources for their amelioration.''

Section 2 of Pub. L. 89–749 provided that:

''(a) The Congress declares that fulfillment of our national purpose depends on promoting and assuring the highest level of health attainable for every person, in an environment which contributes positively to healthful individual and family living; that attainment of this goal depends on an effective partnership, involving close intergovernmental collaboration, official and voluntary efforts, and participation of individuals and organizations; that Federal financial assistance must be directed to support the marshaling of all health resources—national, State, and local—to assure comprehensive health services of high quality for every person, but without interference with existing patterns of private professional practice of medicine, dentistry, and related healing arts.

''(b) To carry out such purpose, and recognizing the changing character of health problems, the Congress finds that comprehensive planning for health services, health manpower, and health facilities is essential at every level of government; that desirable administration requires strengthening the leadership and capacities of State health agencies; and that support of health services provided people in their communities should be broadened and made more flexible.''

Section 2 of act July 3, 1956, provided that:

''(a) The Congress hereby finds and declares—

''(1) that the latest information on the number and relevant characteristics of persons in the country suffering from heart disease, cancer, diabetes, arthritis and rheumatism, and other diseases, injuries, and handicapping conditions is now seriously out of date; and

''(2) that periodic inventories providing reasonably current information on these matters are urgently needed for purposes such as (A) appraisal of the true state of health of our population (including both adults and children), (B) adequate planning of any programs to improve their health, (C) research in the field of chronic diseases, and (D) measurement of the numbers of persons in the working ages so disabled as to be unable to perform gainful work.

''(b) It is, therefore, the purpose of this Act [see Short Title of 1956 Amendment note set out under section 201 of this title] to provide (1) for a continuing survey and special studies to secure on a non-compulsory basis accurate and current statistical information on the amount, distribution, and effects of illness and disability in the United States and the services received for or because of such conditions; and (2) for studying methods and survey techniques for securing such statistical information, with a view toward their continuing improvement.''

(iii) referral for environmental intervention associated with such levels; and

(B) to provide education about childhood lead poisoning.

(2) Authority regarding certain entities

With respect to a geographic area with a need for activities authorized in paragraph (1), in any case in which neither the State nor the political subdivision in which such area is located has applied for a grant under paragraph (1), the Secretary may make a grant under such paragraph to any grantee under section 254b, 254c, 256, or 256a of this title for carrying out such activities in the area.

(A) In the case of a provider making an agreement pursuant to paragraph (1)(B) regarding the provision of services, the requirement established in such paragraph regarding a participation agreement shall be waived by the Secretary if the provider does not, in providing health care services, impose a charge or accept reimbursement available from any third-party payor, including reimbursement under any insurance policy or under any Federal or State health benefits plan.

(B) A determination by the Secretary of whether a provider referred to in subparagraph (A) meets the criteria for a waiver under such subparagraph shall be made without regard to whether the provider accepts voluntary donations regarding the provision of services to the public.

(c) Priority in making grants

In making grants under subsection (a) of this section, the Secretary shall give priority to applications for programs that will serve areas with a high incidence of elevated blood lead levels in infants and children.

(d) Grant application

No grant may be made under subsection (a) of this section, unless an application therefor has been submitted to, and approved by, the Secretary. Such an application shall be in such form and shall be submitted in such manner as the Secretary shall prescribe and shall include each of the following:

(A) communicate to parents, educators, and local health officials the significance and prevalence of lead poisoning in infants and children (including the sources of lead exposure, the importance of screening young children for lead, and the preventive steps that parents can take in reducing the risk of lead poisoning) which the program is designed to detect and prevent; and

(B) communicate to health professionals and paraprofessionals updated knowledge concerning lead poisoning and research (including the health consequences, if any, of low-level lead burden; the prevalence of lead poisoning among all socioeconomic groupings; the benefits of expanded lead screening; and the therapeutic and other interventions available to prevent and combat lead poisoning in affected children and families).

(3) Assurances satisfactory to the Secretary that the applicant will report on a quarterly basis the number of infants and children screened for elevated blood lead levels, the number of infants and children who were found to have elevated blood lead levels, the number and type of medical referrals made for such infants and children, the outcome of such referrals, and other information to measure program effectiveness.

(4) Assurances satisfactory to the Secretary that the applicant will make such reports respecting the program involved as the Secretary may require.

(6) Assurances satisfactory to the Secretary that Federal funds made available under such a grant for any period will be so used as to supplement and, to the extent practical, increase the level of State, local, and other non-Federal funds that would, in the absence of such Federal funds, be made available for the program for which the grant is to be made and will in no event supplant such State, local, and other non-Federal funds.

Pub. L. 100–202, § 101(h) [title II], Dec. 22, 1987, 101 Stat. 1329–256, 1329–365, provided: ''That the Director shall cause to be distributed without necessary clearance of the content by any official, organization or office, an AIDS mailer to every American household by

June 30, 1988, as approved and funded by the Congress in Public Law 100–71 [July 11, 1987, 101 Stat. 391].''

CONGRESSIONAL FINDINGS AND DECLARATIONS

Section 204(a) of Pub. L. 95–626 provided that: ''The Congress finds and declares that—

''(1) the number of reported cases of venereal disease persists in epidemic proportions in the United States;

''(2) the number of persons affected by venereal disease and reported to public health authorities is only a fraction of those actually affected;

''(3) the incidence of venereal disease continues to be particularly high among American youth, ages fifteen to twenty-nine, and among populations in metropolitan areas;

''(4) venereal disease accounts for severe permanent disabilities and sometimes death in newborns and causes reproductive dysfunction in women of childbearing age;

''(5) it is conservatively estimated that the public cost of health care for persons suffering from complications of venereal disease exceeds one-half billion dollars annually;

''(6) the number of trained Federal venereal disease prevention and control personnel has fallen to a dangerously inadequate level;

''(7) no vaccine for syphilis, gonorrhea, or any other venereal disease has yet been developed, nor does a blood test for the detection of asymptomatic gonorrhea in women exist, nor are safe and effective therapeutic agents available for some other venereal diseases;

''(8) school health education programs, public information and awareness campaigns, mass diagnostic screening and case followup have all been found to be effective venereal disease prevention and control methodologies;

''(9) skilled and knowledgeable health care providers, informed and concerned individuals and active, well-coordinated voluntary groups are fundamental to venereal disease prevention and control;

''(10) biomedical research toward improved diagnostic and therapeutic tools is of singular importance to the elimination of venereal disease; and

''(11) an increasing number of sexually transmissible diseases besides syphilis and gonorrhea have become a public health hazard.''

Section 203(a) of Pub. L. 94–317 provided that: ''The Congress finds and declares that—

''(1) the number of reported cases of venereal disease continues in epidemic proportions in the United States;

''(2) the number of patients with venereal disease reported to public health authorities is only a fraction of those actually infected;

''(3) the incidence of venereal disease is particularly high in the 15–29-year age group, and in metropolitan areas;

''(4) venereal disease accounts for needless deaths and leads to such severe disabilities as sterility, insanity, blindness, and crippling conditions;

''(5) the number of cases of congenital syphilis, a preventable disease, tends to parallel the incidence of syphilis in adults;

''(6) it is conservatively estimated that the public cost of care for persons suffering the complications of venereal disease exceed $80,000,000 annually;

''(7) medical researchers have no successful vaccine for syphilis or gonorrhea, and have no blood test for the detection of gonorrhea among the large reservoir of asymptomatic females;

''(8) school health education programs, public information and awareness campaigns, mass diagnostic screening and case followup activities have all been found to be effective disease intervention methodologies;

''(9) knowledgeable health providers and concerned individuals and groups are fundamental to venereal disease prevention and control;

''(10) biomedical research leading to the development of vaccines for syphilis and gonorrhea is of singular importance for the eventual eradication of these dreaded diseases; and

L. 93–155, title VIII, Nov. 16, 1973, 87 Stat. 622, which enacted section 248a of this title and repealed section 3 of Pub. L. 92–585, Oct. 27, 1972, 86 Stat. 1292.

CODIFICATION

Section was enacted as part of the Omnibus Budget Reconciliation Act of 1981, and not as part of the Public Health Service Act which comprises this chapter.

CONGRESSIONAL FINDINGS AND DECLARATION OF PURPOSE

Section 985 of Pub. L. 97–35 provided that:
''(a) Congress finds that—

''(1) because of national budgetary considerations, it has become necessary to terminate Federal appropriations for Public Health Service hospitals and clinics,

''(2) with proper planning and coordination, some of these hospitals and clinics could be transferred to State, local, or private control or become financially self-sufficient and continue to provide effective and efficient health care to individuals in the areas in which they are located,

''(3) a precipitous closure of these hospitals and clinics will preclude the possibility of such orderly transfer to entities which are willing and able to take over operations at such facilities and will cause unnecessary and costly hardships on the patients and staffs at such facilities and on the communities in which the facilities are located, and

''(4) it is in the national interest, consistent with sound budgetary considerations, to assist in the orderly and prompt transfer of such operations to State, local, or private operation or in the achievement of financial self-sufficiency where feasible.

''(b) The purposes of this subtitle [enacting this section, amending sections 201, 249, and 254e of this title, and enacting provisions set out as notes under section 249 of this title] are—

''(1) to provide for the prompt and orderly closure by October 31, 1981, of Public Health Service hospitals and clinics which cannot reasonably be transferred to State, local, or private operation or become financially self-sufficient and for the transfer or achievement of financial self-sufficiency by September 30, 1982, of those hospitals and clinics which can be so transferred or which can achieve such financial self-sufficiency, and

''(2) to provide for transitional assistance for merchant seamen whose entitlement to receive free care through Public Health Service hospitals and clinics is repealed and who are hospitalized at the end of fiscal year 1981 and require continuing hospitalization.''

§ 248c. Continued use of former Public Health Service facilities

(a) Facilities providing medical or dental care to members and former members of uniformed services and dependents

Any Public Health Service hospital or other station which was transferred to a public or nonprofit private entity pursuant to the provisions of section 248b of this title shall be deemed to be a facility of the uniformed services for the purposes of chapter 55 of title 10, if such hospital or other station was, on the day before the date of the transfer, a facility approved under such chapter to provide medical and dental care to members and former members of the uniformed services and their dependents.

(b) Termination of approved status

The Secretary of Defense, the Secretary of Health and Human Services, and the Secretary of Transportation when the Coast Guard is not operating as a service in the Navy may terminate, for purposes of chapter 55 of title 10, the approved status, of any facility described in subsection (a) of this section to furnish medical or dental care to members and former members of the uniformed services and their dependents as provided for in section 248d(e) of this title.

(c) Reimbursement of approved facilities for medical and dental care provided to members and former members of uniformed services and dependents

The Secretary of Defense, the Secretary of Health and Human Services, and the Secretary of Transportation when the Coast Guard is not operating as a service in the Navy shall reimburse any facility described in subsection (a) of this section for medical and dental care provided by such facility to members and former members of the uniformed services and their dependents who receive such care under chapter 55 of title 10. The rates of reimbursement shall be negotiated and agreed upon by the Secretary of Defense, the Secretary of Health and Human Services, the Secretary of Transportation when the Coast Guard is not operating as a service in the Navy, and the appropriate officials representing the facility concerned. The rates of reimbursement shall be based upon medical and dental care costs in the area in which the facility concerned is located.

''(2) the Secretary determines that preemption of the law or regulation is necessary to implement or operate the managed-care delivery and reimbursement model referred to in that section or to achieve some other Federal interest.''

The Secretary of Defense, in consultation with the Secretary of Health and Human Services and the Secretary of Transportation when the Coast Guard is not operating as a service in the Navy, shall conduct demonstration projects for the purpose of comparing and evaluating the cost-effectiveness, accessibility, patient acceptance, and the quality of medical care contracted for by the Secretary of Defense under sections 1079 and 1086 of title 10, with the medical care provided in those facilities deemed to be facilities of the uniformed services by virtue of section 248c of this title. The Secretary of Defense shall begin conducting such projects within one year after September 24, 1983, and continue conducting such projects for not less than three years.

(b) Alternative payment mechanisms

The projects carried out by the Secretary of Defense under this subsection shall utilize various alternative mechanisms for the payment of medical services provided eligible persons, including capitation, prospective payment, all-inclusive fee-for-service charges, and other concepts and programs consistent with the purpose of this section.

(c) Designation of additional civilian medical facilities

If the Secretary of Defense, the Secretary of Health and Human Services, and the Secretary of Transportation when the Coast Guard is not operating as a service in the Navy determine such action is necessary in order to permit a meaningful evaluation of alternative methods of providing medical care to persons eligible for such care under sections 1079 and 1086 of title 10, they may jointly designate additional civilian medical facilities to be facilities of the uniformed services for the purposes of section 1079 of such title. A copy of each such order shall be furnished to the affected facility and the Committees on Appropriations and on Armed Services of the Senate and the House of Representatives and shall become effective in accordance with the terms of the notice, but not earlier than six months following the date on which a copy of the notice has been furnished to the facility and the committees. Each such copy of the order shall include a copy of the certification required in clause (3) of the second sentence of this subsection and shall contain cost data substantiating the termination decision and identifying how more cost-effective care could be provided to the affected individuals. Any facility described in subsection (a) of this section or designated under subsection (c) of this section may terminate its status or designation made under that subsection at any time after the expiration of six months following the date on which a copy of the order terminating the status or designation has been furnished the facility.

(B) The Secretary may make grants to and enter into contracts with public and nonprofit private entities for projects for the operation of programs in areas in which no migrant health center exists and in which not more than four thousand migratory agricultural workers and their families reside for more than two months—

(i) for the provision of emergency care to migratory agricultural workers, seasonal agricultural workers, and the members of the families of such migratory and seasonal workers;

(ii) for the provision of primary care (as defined in regulations of the Secretary) for such workers and the members of their families;

(iii) for the development of arrangements with existing facilities to provide primary health services (not included as primary care as defined under regulations under clause (ii)) to such workers and the members of their families; or

(iv) which otherwise improve the health of such workers and the members of their families.

Any such program may include the acquisition, expansion, and modernization of existing buildings, construction of new buildings, and providing training related to the management of programs assisted under this subparagraph.

(C) The Secretary may make grants to migrant health centers to enable the centers to plan and develop the provision of health services on a prepaid basis to some or to all of the individuals which the centers serve. Such a grant may only be made for such a center if—

(i) the center has received grants under subparagraph (A) of this paragraph for at least two consecutive years preceding the year of the grant under this subparagraph;

(ii) the governing board of the center (described in subsection (f)(3)(G) of this section) requests, in a manner prescribed by the Secretary, that the center provide health services on a prepaid basis to some or to all of the population which the center serves; and

(iii) the center provides assurances satisfactory to the Secretary that the provision of such services on a prepaid basis will not result in the diminution of health services provided by the center to the population the center served prior to the grant under this subparagraph.

Any such grant may include the acquisition, expansion, and modernization of existing buildings, construction of new buildings, and providing training related to the management of the provision of health services on a prepaid basis.

(2) The costs for which a grant may be made under paragraph (1)(A) may include the costs of acquiring, expanding, and modernizing existing buildings and constructing new buildings (including the costs of amortizing the principal of, and paying the interest on, loans) and the costs of repaying loans made by the Farmers Home Administration for buildings; and the costs for which a grant or contract may be made under paragraph (1) may include the costs of providing training related to the provision of primary health services, supplemental health services, and environmental health services, and to the management of migrant health center programs.

(3) Not more than two grants may be made under paragraph (1)(C) for the same entity.

(4)(A) The amount of any grant made in any fiscal year under subparagraph (A) of paragraph (1) to a health center shall be determined by the Secretary, but may not exceed the amount by which the costs of operation of the center in such fiscal year exceed the total of—

(i) State, local, and other operational funding, and

(ii) the fees, premiums, and third-party reimbursements,

which the center may reasonably be expected to receive for its operations in such fiscal year. In determining the amount of such a grant for a center, if the application for the grant requests funds for a service described in subparagraph (D) or (E) of subsection (a)(1) of this section (other than to the extent the funds would be used for the improvement of private property) or a supplemental health service described in subparagraph (B), (F), (J), or (L) of subsection (a)(7) of this section, the Secretary shall include, in an amount determined by the Secretary and to the extent funds are available under appropriation Acts, funds for such service unless the Secretary makes a written finding that such service is not needed and provides the applicant with a copy of such finding.

(B) Payments under grants under subparagraph (A) of paragraph (1) shall be made in advance or by way of reimbursement and in such installments as the Secretary finds necessary and adjustments may be made for overpayments or underpayments, except that if in any fiscal year the sum of—

(i) the total of the amounts described in clauses (i) and (ii) of subparagraph (A) of this paragraph received by a center in such fiscal year, and

(ii) the amount of the grant to the center in such fiscal year,

exceeded the costs of the center's operation in such fiscal year because the amount received by the center from fees, premiums, and third-party reimbursements was greater than expected, an adjustment in the amount of the grant to the center in the succeeding fiscal year shall be made in such a manner that the center shall be entitled to retain the additional amount of fees, premiums, and other third party reimbursements as the center will use (I) to expand and improve its services, (II) to increase the number of persons (eligible under subsection (a) of this section to receive services from such a center) it is able to serve, (III) to construct, expand, and modernize its facilities, (IV) to improve the administration of its service programs, and (V) to establish the financial reserve required for the furnishing of services on a prepaid basis. Without the approval of the Secretary, not more than one-half of such retained sum may be used for construction and modernization of its facilities.

(C) With respect to amounts described in clauses (i) and (ii) of subparagraph (A), the Secretary may not restrict expenditures of such amounts by any grantee under paragraph (1)(A) for—

(i) repair or minor renovation of the physical plant;

(ii) establishment of a financial reserve as required for the furnishing of services on a prepaid basis or as needed to cover unanticipated expenses;

(iii) interest payments on short-term loans to cover cash shortfalls; or

(iv) necessary salary requirements to remain competitive in hiring health care practitioners.

(e) Contracts with public and private entities for implementation and enforcement of environmental health standards and projects and studies related to environmental health hazard problems

The Secretary may enter into contracts with public and private entities to—

(1) assist the States in the implementation and enforcement of acceptable environmental health standards, including enforcement of standards for sanitation in migrant labor camps and applicable Federal and State pesticide control standards; and

(2) conduct projects and studies to assist the several States and entities which have received grants or contracts under this section in the assessment of problems related to camp and field sanitation, pesticide hazards, and other environmental health hazards to which migratory agricultural workers, seasonal agricultural workers, and members of their families are exposed.

(f) Approval of application as prerequisite for grant or contract; form and manner of submission and contents of application; determination of entity as center as prerequisite for approval of application; criteria for determination; priorities for applications; improvements of private property; nonapplicability of statutory provisions to contracts; new building grant conditions

(1) No grant may be made under subsection (c) or (d) of this section and no contract may be entered into under subsection (c)(1)(B), (d)(1)(B), or (e) of this section unless an application therefore[2] is submitted to, and approved by, the Secretary. Such an application shall be submitted in such form and manner and shall contain such information as the Secretary shall prescribe. An application for a grant or contract which will cover the costs of modernizing a building shall include, in addition to other information required by the Secretary—

(A) a description of the site of the building,

(B) plans and specifications for its modernization, and

§ 254c. Community health centers

(a) Definitions

For purposes of this section, the term ''community health center'' means an entity which either through its staff and supporting resources or through contracts or cooperative arrangements with other public or private entities provides—

(1) primarily health services,

(2) as may be appropriate for particular centers, supplemental health services necessary for the adequate support of primary health services,

(3) referral to providers of supplemental health services and payment, as appropriate and feasible, for their provision of such services,

(4) environmental health services, including, as may be appropriate for particular centers (as determined by the centers), the detection and alleviation of unhealthful conditions associated with water supply, sewage treatment, solid waste disposal, rodent and parasitic infestation, field sanitation, housing, and other environmental factors related to health,

(5) information on the availability and proper use of health services and services which promote and facilitate optimal use of health services, including, if a substantial number of the individuals in the population served by a center are of limited English-speaking ability, the services of appropriate personnel fluent in the language spoken by a predominant number of such individuals, and

(6) patient case management services (including outreach, counseling, referral, and follow-up services),

for all residents of the area it serves (referred to in this section as a ''catchment area'').

(b) Additional definitions; criteria to determine specific shortages of personal health services; designation of medically underserved population or termination of such designation

For purposes of this section:

(1) The term ''primary health services'' means—

(A) services of physicians and, where feasible, services of physicians' assistants and nurse clinicians;

(B) diagnostic laboratory and radiologic services;

(C) preventive health services (including children's eye and ear examinations to determine the need for vision and hearing correction, perinatal services, well child services, immunizations against vaccine-preventable diseases, screenings for elevated blood lead levels, and family planning services);

(D) emergency medical services;

(E) transportation services as required for adequate patient care;

(F) preventive dental services; and

(G) pharmaceutical services, as may be appropriate for particular centers.

(2) The term ''supplemental health services'' means services which are not included as primary health services and which are—

(A) hospital services;

(B) home health services;

(C) extended care facility services;

(D) rehabilitative services (including physical therapy) and long-term physical medicine;

(E) mental health services;

(F) dental services;

(G) vision services;

(H) allied health services;

(I) therapeutic radiologic services;

(J) public health services (including, for the social and other nonmedical needs which affect health status, counseling, referral for assistance, and followup services);

(K) ambulatory surgical services;

(L) health education services (including nutrition education); and

(M) other services appropriate to meet the health needs of the medically underserved population served by the community health center involved.

(3) The term ''medically underserved population'' means the population of an urban or rural area designated by the Secretary as an area with a shortage of personal health services or a population group designated by the Secretary as having a shortage of such services.

(4) In carrying out paragraph (3), the Secretary shall by regulation prescribe criteria for determining the specific shortages of personal health services of an area or population group. Such criteria shall—

(A) take into account comments received by the Secretary from the chief executive officer of a State and local officials in a State; and

(B) include infant mortality in an area or population group, other factors indicative of the health status of a population group or residents of an area, the ability of the residents of an area or of a population group to pay for health services and their accessibility to them, and the availability of health professionals to residents of an area or to a population group.

The Secretary may modify the criteria established in regulations issued under this paragraph only after affording public notice and an opportunity for comment on any such proposed modifications.

(5) The Secretary may not designate a medically underserved population in a State or terminate the designation of such a population unless, prior to such designation or termination, the Secretary provides reasonable notice and opportunity for comment and consults with—

(A) the chief executive officer of such State;

(B) local officials in such State; and

(C) the State organization, if any, which represents a majority of community health centers in such State.

(6) The Secretary may designate a medically underserved population that does not meet the criteria established under paragraph (4) if the chief executive officer of the State in which such population is located and local officials of such State recommend the designation of such population based on unusual local conditions which are a barrier to access to or the availability of personal health services.

(c) Grants to public and nonprofit private entities for projects to plan and develop centers; costs includable and criteria for grants; number of grants; determination of amount of grants

(1) The Secretary may make grants to public and nonprofit private entities for projects to plan and develop community health centers which will serve medically underserved popu-

lations. A project for which a grant may be made under this subsection may include the cost of the acquisition, expansion, and modernization of existing buildings and construction of new buildings (including the costs of amortizing the principal of, and paying the interest on, loans) and shall include—

(A) an assessment of the need that the population proposed to be served by the community health center for which the project is undertaken has for primary health services, supplemental health services, and environmental health services;

(B) the design of a community health center program for such population based on such assessment;

(C) efforts to secure, within the proposed catchment area of such center, financial and professional assistance and support for the project; and

(D) initiation and encouragement of continuing community involvement in the development and operation of the project.

(2) Not more than two grants may be made under this subsection for the same project.

(3) The amount of any grant made under this subsection for any project shall be determined by the Secretary.

(d) Grants to public and nonprofit private centers and related entities functioning without center determination for costs of operation; prepayment; costs includable for grants; number of grants; determination of amount of grants; payments

(1)(A) The Secretary may make grants for the costs of operation of public and nonprofit private community health centers which serve medically underserved populations.

(B) The Secretary may make grants for the costs of the operation of public and nonprofit private entities which provide health services to medically underserved populations but with respect to which he is unable to make each of the determinations required by subsection (e)(3) of this section.

(C) The Secretary may make grants to community health centers to enable the centers to plan and develop the provision of health services on a prepaid basis to some or to all of the individuals which the centers serve. Such a grant may only be made for such a center if—

(i) the center has received grants under subparagraph (A) of this paragraph for at least two consecutive years preceding the year of the grant under this subparagraph;

(ii) the governing board of the center (described in subsection (e)(3)(G) of this section) requests, in a manner prescribed by the Secretary, that the center provide health services on a prepaid basis to some or to all of the population which the center serves; and

(iii) the center provides assurances satisfactory to the Secretary that the provision of such services on a prepaid basis will not result in the diminution of health services provided by the center to the population the center served prior to the grant under this subparagraph.

Any such grant may include the acquisition, expansion, and modernization of existing buildings, construction of new buildings, and providing training related to management of the provision of health services on a prepaid basis.

(2) The costs for which a grant may be made under paragraph (1)(A) or (1)(B) may include the costs of acquiring, expanding, and modernizing existing buildings and constructing new buildings (including the costs of amortizing the principal of, and paying interest on, loans), the costs of repaying loans made by the Farmers Home Administration for buildings, and the costs of providing training related to the provision of primary health services, supplemental health services and environmental health services, and to the management of community health center programs.

(3) Not more than two grants may be made under paragraph (1)(B) or (1)(C) for the same entity.

(4)(A) The amount of any grant made in any fiscal year under paragraph (1) (other than subparagraph (C)) to a community health center shall be determined by the Secretary, but may not exceed the amount by which the costs of operation of the center in such fiscal year exceed the total of—

(i) State, local, and other operational funding, and

(ii) the fees, premiums, and third-party reimbursements,

which the center may reasonably be expected to receive for its operations in such fiscal year. In determining the amount of such a grant for a center, if the application for the grant requests funds for a service described in subsection (a)(4) of this section (other than to the extent the funds would be used for the improvement of private property) or a supplemental health service described in subparagraph (B), (F), (L), or (M) of subsection (b)(2) of this section, the Secretary shall include, in an amount determined by the Secretary and to the extent funds are available under appropriation Acts, funds for such service unless the Secretary makes a written finding that such service is not needed and provides the applicant with a copy of such finding.

(B) Payments under grants under subparagraph (A) or (B) of paragraph (1) shall be made in advance or by way of reimbursement and in such installments as the Secretary finds necessary and adjustments may be made for overpayments or underpayments, except that if in any fiscal year the sum of—

(i) the total of the amounts described in clauses (i) and (ii) of subparagraph (A) received by a center in such fiscal year, and

(ii) the amount of the grant to the center in such fiscal year,

exceeded the costs of the center's operation in such fiscal year because the amount received by the center from fees, premiums, and third-party reimbursements was greater than expected, an adjustment in the amount of the grant to the center in the succeeding fiscal year shall be made in such a manner that the center shall be entitled to retain the additional amount of fees, premiums, and other third party reimbursements as the center will use (I) to expand and improve its services, (II) to increase the number of persons (eligible to receive services from such

a center) it is able to serve, (III) to construct, expand, and modernize its facilities, (IV) to improve the administration of its service programs, and (V) to establish the financial reserve required for the furnishing of services on a prepaid basis. Without the approval of the Secretary, not more than one-half of such retained sum may be used for construction and modernization of its facilities.

(C) With respect to amounts described in clauses (i) and (ii) of subparagraph (A), the Secretary may not restrict expenditures of such amounts by any grantee under paragraph (1) for—

(i) repair or minor renovation of the physical plant;

(ii) establishment of a financial reserve as required for the furnishing of services on a prepaid basis or as needed to cover unanticipated expenses;

(iii) interest payments on short-term loans to cover cash shortfalls; or

(iv) necessary salary requirements to remain competitive in hiring health care practitioners.

(e) Approval of application as prerequisite for grant; form and manner of submission and contents of application; determination of entity as center as prerequisite for approval of application; "public center" defined; improvement of private property; new building grant conditions

(1) No grant may be made under subsection (c) or (d) of this section unless an application therefor is submitted to, and approved by, the Secretary. Such an application shall be submitted in such form and manner and shall contain such information as the Secretary shall prescribe. An application for a grant which will cover the costs of modernizing a building shall include, in addition to other information required by the Secretary—

(A) a description of the site of the building,

(B) plans and specifications for its modernization, and

(C) reasonable assurance that all laborers and mechanics employed by contractors or subcontractors in the performance of work on the modernization of the building will be paid wages at rates not less than those prevailing on similar work in the locality as determined by the Secretary of Labor in accordance with the Act of March 3, 1931 (40 U.S.C. 276a—276a–5, known as the Davis-Bacon Act).

The Secretary of Labor shall have with respect to the labor standards referred to in subparagraph (C) the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176, 5 U.S.C. Appendix) and section 276c of title 40.

(2) An application for a grant under subparagraph (A) or (B) of subsection (d)(1) of this section for a community health center shall include—

(A) a description of the need in the center's catchment area for each of the health services described in subsection (a)(4) of this section and in subparagraphs (B), (F), (L), and (M) of subsection (b)(2) of this section,

(B) if the applicant determines that any such service is not needed, the basis for such determination, and

(C) if the applicant does not request funds for any such service which the applicant determines is needed, the reason for not making such a request.

Such an application shall also include a demonstration by the applicant that the area or a population group to be served by the applicant has a shortage of personal health services and that the center will be located so that it will provide services to the greatest number of persons residing in such area or included in such population group. Such a demonstration shall be made on the basis of the criteria prescribed by the Secretary under subsection (b)(3) of this section or on any other criteria which the Secretary may prescribe to determine if the area or population group to be served by the applicant has a shortage of personal health services. In considering an application for a grant under subparagraph (A) or (B) of subsection (d)(1) of this section, the Secretary may require as a condition to the approval of such application assurance that the applicant will provide any specified health services described in subsection (a) or (b) of this section which the Secretary finds is needed to meet specific health needs of the area to be served by the applicant. Such a finding shall be made in writing and a copy shall be provided the applicant.

(3) Except as provided in subsection (d)(1)(B) of this section, the Secretary may not approve an application for a grant under paragraph (1)(A) or (1)(B) of subsection (d) of this section unless the Secretary determines that the entity for which the application is submitted is a community health center (within the meaning of subsection (a) of this section) and that—

(A) the primary health services of the center will be available and accessible in the center's catchment area promptly, as appropriate, and in a manner which assures continuity;

(B) the center will have organizational arrangements, established in accordance with regulations prescribed by the Secretary, or (i) an ongoing quality assurance program (including utilization and peer review systems) respecting the center's services, and (ii) maintaining the confidentiality of patient records;

(C) the center will demonstrate its financial responsibility by the use of such accounting procedures and other requirements as may be prescribed by the Secretary;

(D) the center (i) has or will have a contractual or other arrangement with the agency of the State, in which it provides services, which administers or supervises the administration of a State plan approved under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.] for the payment of all or a part of the center's costs in providing health services to persons who are eligible for medical assistance under such a State plan, or (ii) has made or will make every reasonable effort to enter into such an arrangement;

(E) the center has made or will make and will continue to make every reasonable effort to collect appropriate reimbursement for its costs in providing health services to persons who are entitled to insurance benefits under title XVIII of the Social Security Act [42 U.S.C. 1395 et seq.], to medical assistance

under a State plan approved under title XIX of such Act [42 U.S.C. 1396 et seq.], or to assistance for medical expenses under any other public assistance program or private health insurance program;

(F) the center (i) has prepared a schedule of fees or payments for the provision of its services consistent with locally prevailing rates or charges and designed to cover its reasonable costs of operation and has prepared a corresponding schedule of discounts to be applied to the payment of such fees or payments, which discounts are adjusted on the basis of the patient's ability to pay, (ii) has made and will continue to make every reasonable effort (I) to secure from patients payment for services in accordance with such schedules, and (II) to collect reimbursement for health services to persons described in subparagraph (E) on the basis of the full amount of fees and payments for such services without application of any discount, and (iii) has submitted to the Secretary such reports as he may require to determine compliance with this subparagraph;

(G) the center has established a governing board which (i) except in the case of an entity operated by an Indian tribe or tribal or Indian organization under the Indian Self-Determination Act [25 U.S.C. 450f et seq.], is composed of individuals a majority of whom are being served by the center and who, as a group, represent the individuals being served by the center, and (ii) meets at least once a month, selects the services to be provided by the center, schedules the hours during which such services will be provided, approves the center's annual budget, approves the selection of a director for the center, and, except in the case of a governing board of a public center (as defined in the second sentence of this paragraph), establishes general policies for the center; and if the application is for a second or subsequent grant for a public center, the governing body has approved the application or if the governing body has not approved the application, the failure of the governing body to approve the application was unreasonable;

(H) the center has developed, in accordance with regulations of the Secretary, (i) an overall plan and budget that meets the requirements of section 1861(z) of the Social Security Act [42 U.S.C. 1395x(z)], and (ii) an effective procedure for compiling and reporting to the Secretary such statistics and other information as the Secretary may require relating to (I) the costs of its operations, (II) the patterns of use of its services, (III) the availability, accessibility, and acceptability of its services, (IV) such other matters relating to operations of the applicant as the Secretary may, by regulation, require, and (V) expenditures made from any amount the center was permitted to retain under subsection (d)(4)(B) of this section;

(I) the center will review periodically its catchment area to (i) insure that the size of such area is such that the services to be provided through the center (including any satellite) are available and accessible to the residents of the area promptly and as appropriate, (ii) insure that the boundaries of such area conform, to the extent practicable, to relevant boundaries of political subdivisions, school districts, and Federal and State health and social service programs, and (iii) insure that the boundaries of such area eliminate, to the extent possible, barriers to access to the services of the center, including barriers resulting from the area's physical characteristics, its residential patterns, its economic and social groupings, and available transportation;

(J) in the case of a center which serves a population including a substantial proportion of individuals of limited English-speaking ability, the center has (i) developed a plan and made arrangements responsive to the needs of such population for providing services to the extent practicable in the language and cultural context most appropriate to such individuals, and (ii) identified an individual on its staff who is fluent in both that language and in English and whose responsibilities shall include providing guidance to such individuals and to appropriate staff members with respect to cultural sensitivities and bridging linguistic and cultural differences; and

(K) the center, in accordance with regulations prescribed by the Secretary, has developed an on-going referral relationship with one or more hospitals.

For purposes of subparagraph (G) and subsection (g)(4) of this section, the term ''public center'' means a community health center funded (or to be funded) through a grant under this section to a public agency.

(4) The Secretary shall approve applications for grants under paragraph (1)(A) or (1)(B) of subsection (d) of this section for community health centers which—

(A) have not received a previous grant under such paragraph, or

(B) have applied for such a grant to expand their services,

in such a manner that the ratio of the medical underserved populations in rural areas which may be expected to use the services provided by such centers to the medical underserved populations in urban areas which may be expected to use the services provided by such centers is not less than two to three or greater than three to two.

(5) The Secretary, in making a grant under this section to a community health center for the provision of environmental health services described in subsection (a)(4) of this section, may designate a portion of the grant to be expended for improvements to private property for which the written consent of the owner has been obtained and which are necessary to alleviate a hazard to the health of those residing on, or otherwise using, the property and of other persons in the center's catchment area. A center may make such an expenditure for an improvement under a grant only after the Secretary has specifically approved such expenditure and has determined that funds for the improvement are not available from any other source.

(6) The Secretary may make a grant under subsection (c) or (d) of this section for the construction of new buildings for a community health center only if the Secretary determines

that appropriate facilities are not available through acquiring, modernizing, or expanding existing buildings and that the entity to which the grant will be made has made reasonable efforts to secure from other sources funds, in lieu of the grant, to construct such facilities.

(f) Technical and other nonfinancial assistance; resources list

(1) The Secretary may provide (either through the Department of Health and Human Services or by grant or contract) all necessary technical and other nonfinancial assistance (including fiscal and program management assistance and training in such management) to any public or private nonprofit entity to assist it in developing plans for, and in operating as, a community health center, and in meeting requirements of subsection (e)(2) of this section.

(2) The Secretary shall make available to each grant recipient under this section a list of available Federal and non-Federal resources to improve the environmental and nutritional status of individuals in the recipient's catchment area.

EVALUATION OF CRITERIA USED TO DESIGNATE HEALTH MANPOWER SHORTAGE AREAS; REPORT TO CONGRESS

Section 2702(c) of Pub. L. 97–35 directed the Secretary of Health and Human Services, effective Oct. 1, 1981, to evaluate the criteria used under section 254e(b) of this title to determine if the use of the criteria resulted in areas which did not have a shortage of health professions personnel being designated as health manpower shortage areas, and to consider different criteria (including the actual use of health professions personnel

in an area by the residents, taking into account their health status and indicators of unmet demand and likelihood that such demand would not be met in two years) which might be used to designate health manpower shortage areas. The Secretary was to report the results of his activities to Congress not later than Nov. 30, 1982.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 254d, 254f, 254g, 254k, 254*l*, 254*l*–1, 254m, 254n, 254p, 295p, 296m, 297, 297–1, 1395*l*, 1395x, 9840 of this title; title 5 section 8902.

§ 254f. Corps personnel

(a) Conditions necessary for assignment of Corps personnel to area; contents of application for assignment; assignment to particular facility; approval of applications

(1) The Secretary may assign members of the Corps to provide, under regulations promulgated by the Secretary, health services in or to a health professional shortage area during the assignment period (specified in the agreement described in section 254g of this title) only if—

(A) a public or nonprofit private entity, which is located or has a demonstrated interest in such area makes application to the Secretary for such assignment;

(B) such application has been approved by the Secretary;

(C) an agreement has been entered into between the entity which has applied and the Secretary, in accordance with section 254g of this title; and

(D) the Secretary has (i) conducted an evaluation of the need and demand for health manpower for the area, the intended use of Corps members to be assigned to the area, community support for the assignment of Corps members to the area, the area's efforts to secure health manpower for the area, and the fiscal management capability of the entity to which Corps members would be assigned and (ii) on the basis of such evaluation has determined that—

(I) there is a need and demand for health manpower for the area;

(II) there has been appropriate and efficient use of any Corps members assigned to the entity for the area;

(III) there is general community support for the assignment of Corps members to the entity;

(IV) the area has made unsuccessful efforts to secure health manpower for the area; and

(V) there is a reasonable prospect of sound fiscal management, including efficient collection of fee-for-service, third-party, and other appropriate funds, by the entity with respect to Corps members assigned to such entity.

An application for assignment of a Corps member to a health professional shortage area shall include a demonstration by the applicant that the area or population group to be served by the applicant has a shortage of personal health services and that the Corps member will be located so that the member will provide services to the greatest number of persons residing in such area or included in such population group. Such a demonstration shall be made on the basis of the criteria prescribed by the Secretary under section 254e(b) of this title and on additional criteria which the Secretary shall prescribe to determine if the area or population group to be served by the applicant has a shortage of personal health services.

(2) Corps members may be assigned to a Federal health care facility, but only upon the request of the head of the department or agency of which such facility is a part.

(3) In approving applications for assignment of members of the Corps the Secretary shall not discriminate against applications from entities which are not receiving Federal financial assistance under this chapter.

(b) Corps member income assurances; grants respecting sufficiency of financial resources

(1) The Secretary may not approve an application for the assignment of a member of the Corps described in subparagraph (C) of section 254d(a)(1) of this title to an entity unless the application of the entity contains assurances satisfactory to the Secretary that the entity (A) has sufficient financial resources to provide the member of the Corps with an income of not less than the income to which the member would be entitled if the member was a member described in subparagraph (B) of section 254d(a)(1) of this title, or (B) would have such financial resources if a grant was made to the entity under paragraph (2).

(2)(A) If in approving an application of an entity for the assignment of a member of the Corps described in subparagraph (C) of section 254d(a)(1) of this title the Secretary determines that the entity does not have sufficient financial resources to provide the member of the Corps with an income of not less than the income to which the member would be entitled if the member was a member described in subparagraph (B) of section 254d(a)(1) of this title, the Secretary may make a grant to the entity to assure that the member of the Corps assigned to it will receive during the period of assignment to the entity such an income.

(B) The amount of any grant under subparagraph (A) shall be determined by the Secretary. Payments under such a grant may be made in advance or by way of reimbursement, and at such intervals and on such conditions, as the Secretary finds necessary. No grant may be made unless an application therefor is submitted to and approved by the Secretary. Such an application shall be in such form, submitted in such manner, and contain such information, as the Secretary shall by regulation prescribe.

(c) Assignment of members without regard to ability of area to pay for services

The Secretary shall assign Corps members to entities in health professional shortage areas without regard to the ability of the individuals in such areas, population groups, medical facilities, or other public facilities to pay for such services.

(d) Entities entitled to aid; forms of assistance; coordination of efforts; agreements for assignment of Corps members; qualified entity

(1) The Secretary may provide technical assistance to a public or nonprofit private entity

which is located in a health professional shortage area and which desires to make an application under this section for assignment of a Corps member to such area. Assistance provided under this paragraph may include assistance to an entity in (A) analyzing the potential use of health professions personnel in defined health services delivery areas by the residents of such areas, (B) determining the need for such personnel in such areas, (C) determining the extent to which such areas will have a financial base to support the practice of such personnel and the extent to which additional financial resources are needed to adequately support the practice, and (D) determining the types of inpatient and other health services that should be provided by such personnel in such areas.

(2) The Secretary may provide, to public and nonprofit private entities which are located in a health professional shortage area to which area a Corps member has been assigned, technical assistance to assist in the retention of such member in such area after the completion of such member's assignment to the area.

(3) The Secretary may provide, to health professional shortage areas to which no Corps member has been assigned, (A) technical assistance to assist in the recruitment of health manpower for such areas, and (B) current information on public and private programs which provide assistance in the securing of health manpower.

(4)(A) The Secretary shall undertake to demonstrate the improvements that can be made in the assignment of members of the Corps to health professional shortage areas and in the delivery of health care by Corps members in such areas through coordination with States, political subdivisions of States, agencies of States and political subdivisions, and other public and nonprofit private entities which have expertise in the planning, development, and operation of centers for the delivery of primary health care. In carrying out this subparagraph, the Secretary shall enter into agreements with qualified entities which provide that if—

(i) the entity places in effect a program for the planning, development, and operation of centers for the delivery of primary health care in health professional shortage areas which reasonably addresses the need for such care in such areas, and

(ii) under the program the entity will perform the functions described in subparagraph (B),

the Secretary will assign under this section members of the Corps in accordance with the program.

(B) For purposes of subparagraph (A), the term ''qualified entity'' means a State, political subdivision of a State, an agency of a State or political subdivision, or other public or nonprofit private entity operating solely within one State, which the Secretary determines is able—

(i) to analyze the potential use of health professions personnel in defined health services delivery areas by the residents of such areas;

(ii) to determine the need for such personnel in such areas and to recruit, select, and retain health professions personnel (including members of the National Health Service Corps) to meet such need;

(iii) to determine the extent to which such areas will have a financial base to support the practice of such personnel and the extent to which additional financial resources are needed to adequately support the practice;

(iv) to determine the types of inpatient and other health services that should be provided by such personnel in such areas;

(v) to assist such personnel in the development of their clinical practice and fee schedules and in the management of their practice;

(vi) to assist in the planning and development of facilities for the delivery of primary health care; and

(vii) to assist in establishing the governing bodies of centers for the delivery of such care and to assist such bodies in defining and carrying out their responsibilities.

(e) Practice within State by Corps member

Notwithstanding any other law, any member of the Corps licensed to practice medicine, osteopathic medicine, dentistry, or any other health profession in any State shall, while serving in the Corps, be allowed to practice such profession in any State.

§ 254g. Cost sharing

(a) Charges for services; collection of payments; payment to United States; calculation of payments; annual report

The Secretary shall require, as a condition to the approval of an application under section 254f of this title for the assignment of a member of the Corps, that the entity which submitted the application enter into an agreement for a specific assignment period (not to exceed 4 years) with the Secretary under which—

(1) the entity shall be responsible for charging, in accordance with subsection (d) of this

[1] So in original. Probably should be ''described''.

section, for health services provided by Corps members assigned to the entity;

(2) the entity shall take such action as may be reasonable for the collection of payments for such health services, including, if a Federal agency, an agency of a State or local government, or other third party would be responsible for all or part of the cost of such health services if it had not been provided by Corps members under this subpart, the collection, on a fee-for-service or other basis, from such agency or third party, the portion of such cost for which it would be so responsible (and in determining the amount of such cost which such agency or third party would be responsible, the health services provided by Corps members shall be considered as being provided by private practitioners);

(3) the entity, if not a small health center, shall pay to the United States, as prescribed by the Secretary in each calendar quarter (or other period as may be specified in the agreement) during which any Corps member is assigned to such entity, the sum of—

(A) an amount calculated by the Secretary to reflect the average salary (including amounts paid in accordance with section 254d(d) of this title) and allowances of comparable Corps members for a calendar quarter (or other period);

(B) that portion of an amount calculated by the Secretary to reflect the average amount paid under the Scholarship Program or the Loan Repayment Program to or on behalf of comparable Corps members that bears the same ratio to the calculated amount as the number of days of service provided by the member during that quarter (or other period) bears to the number of days in his period of obligated service under the Scholarship Program or the Loan Repayment Program; and

(C) if such entity received a loan under section 254h(c) of this title or a grant under section 254f(d)(2)[1] of this title, an amount which bears the same ratio to the amount of such loan or grant as the number of days in such quarter (or other period) during which any Corps members were assigned to the entity bears to the number of days in the assignment period after such entity received such loan or grant;

(4) the entity, if a small health center, shall pay to the United States, in each calendar quarter (or other period as may be specified in the agreement) during which any Corps member is assigned to such entity, an amount determined by the Secretary in accordance with subsection (f) of this section; and

(5) the entity shall prepare and submit to the Secretary an annual report, in such form and manner, as the Secretary may require.

(b) Waiver of payment; use of funds

(1) The Secretary may waive in whole or in part, on a prospective or retrospective basis, the application of the requirement of subsection (a)(3) of this section for an entity which is not a small health center if he determines that the entity is financially unable to meet such requirement or if he determines that compliance with such requirement would unreasonably limit the ability of the entity to provide for the adequate support of the provision of health services by Corps members.

(2) The Secretary may waive in whole or in part, on a prospective or retrospective basis, the application of the requirement of subsection (a)(3) of this section for any entity which is not a small health center and which is located in a health professional shortage area in which a significant percentage of the individuals are elderly, living in poverty, or have other characteristics which indicate an inability to repay, in whole or in part, the amounts required in subsection (a)(3) of this section.

(3) In the event that the Secretary grants a waiver under paragraph (1) or (2), and does not, pursuant to paragraph (5), require payment by the entity in the amount described in subsection (f)(1) of this section, the entity shall be required to use the total amount of funds collected by such entity in accordance with subsection (a)(2) of this section for the improvement of the capability of such entity to deliver health services to the individuals in, or served by, the health professional shortage area.

(4) In determining whether to grant a waiver under paragraph (1) or (2), the Secretary shall not discriminate against a public entity.

(5)(A) If the Secretary determines that an entity which is not a small health center is eligible for a waiver under paragraph (1) or (2), the Secretary may waive the application of subsection (a)(3) of this section for such entity and require such entity to make payment in an amount equal to the amount described in subsection (f)(1) of this section that would be payable by such entity if such entity were a small health center.

(B) The Secretary may waive in whole or in part, on a prospective or retrospective basis, the application of the requirement of subparagraph (A) for any entity if the Secretary determines that the entity is financially unable to meet such requirement or that compliance with such requirement would unreasonably limit the ability of the entity to provide for the adequate support of the provision of health services by Corps members. Funds which would be paid to the United States but for a waiver under this subparagraph shall be used by an entity to—

(i) expand or improve its provision of health services;

(ii) increase the number of individuals served;

(iii) renovate or modernize facilities for its provision of health services;

(iv) improve the administration of its health service programs; or

(v) to establish a financial reserve to assure its ability to continue providing health services.

(c) Excess funds

The excess (if any) of the amount of funds collected by an entity which is not a small health center in accordance with subsection (a)(2) of this section over the amount paid to the United States in accordance with subsection (a)(3) of

[1] See References in Text note below.

this section or subsection (b)(5)(A) of this section shall be used by the entity to expand and improve the provision of health services to the individuals in the health professional shortage area for which the entity submitted an application or to recruit and retain health manpower to provide health services for such individuals.

(d) Charge for services; reduced rate; no charge

Any person who receives health services provided by a Corps member under this subpart shall be charged for such services on a fee-for-service or other basis, at a rate approved by the Secretary, pursuant to regulations. Such rate shall be computed in such a way as to permit the recovery of the value of such services, except that if such person is determined under regulations of the Secretary to be unable to pay such charge, the Secretary shall provide for the furnishing of such services at a reduced rate or without charge.

(e) Deposit of funds in Treasury as miscellaneous receipts; appropriations unaffected

Funds received by the Secretary under an agreement entered into under this section shall be deposited in the Treasury as miscellaneous receipts and shall be disregarded in determining the amounts of appropriations to be requested and the amounts to be made available from appropriations made under section 254k of this title to carry out sections 254d through 254h and section 254j of this title.

(f) Small health centers

(1) An entity which is a small health center shall pay to the United States, as prescribed by the Secretary in each calendar quarter (or other period as may be specified in the agreement) during which any Corps member is assigned to such entity, an amount equal to the amount (prorated for a calendar quarter or other period) by which the revenues that the center may reasonably expect to receive during an annual period for the provision of health services exceeds the costs that the center may reasonably expect to incur in the provision of such services, except that the amount that an entity shall pay to the United States under this paragraph shall not exceed the amount such entity would pay to the United States under paragraph (3) of subsection (a) of this section if such paragraph applied to such entity.

(2)(A) To determine for purposes of paragraph (1) the revenues and costs which an entity that is a small health center may reasonably be expected to receive and incur in an annual period for the provision of health services, the entity shall submit to the Secretary before the beginning of such period a proposed budget which—

(i) describes the primary and supplemental health services (as defined in section 254c of this title) which are needed by the area the entity serves in such period; and

(ii) states the revenues and costs which the entity expects to receive and incur in providing such health services in such period.

(B) From the submission under subparagraph (A) and other information available to the Secretary, the Secretary shall determine—

(i) the primary and supplemental health services (as defined in section 254c of this title) needed in the area the entity serves;

(ii) the fees, premiums, third party reimbursements, and other revenues the entity making the submission may reasonably expect to receive from the provision of such services; and

(iii) the costs which the entity may reasonably expect to incur in providing such services.

The revenues and costs determined by the Secretary shall be the revenues and costs used in making the determination under paragraph (1).

(C)(i) A determination under subparagraph (B) regarding the revenues and costs of an entity in an annual period shall be made by the Secretary utilizing criteria specific to the entity and shall be made without regard to whether the entity is making progress toward collecting sufficient revenues to provide an adequate level of primary health services without the assignment of Corps members.

(ii) In making a determination referred to in clause (i)—

(I) the Secretary may consider whether the proposed budget submitted under subparagraph (A) provides a reasonable estimate regarding the revenues and costs of the entity; and

(II) may not consider the reasonableness of the amount of revenues collected, or the amount of costs incurred by the entity, except to the extent necessary to ensure that the entity is operating in good faith and is operating efficiently with respect to fiscal matters within the control of the entity.

(iii) A determination of whether an entity is eligible for a waiver under paragraph (3) shall be made by the Secretary without regard to the revenues and costs determined by the Secretary under subparagraph (B).

(iv) A determination of whether an entity is a small health center shall be made by the Secretary without regard to the revenues and costs determined by the Secretary under subparagraph (B).

(3) The Secretary may waive in whole or in part, on a prospective or retrospective basis, the application of paragraph (1) for an entity which is a small health center if the Secretary determines that the entity needs all or part of the amounts otherwise payable under such paragraph to—

(A) expand or improve its provision of health services;

(B) increase the number of individuals served;

(C) renovate or modernize facilities for its provision of health services;

(D) improve the administration of its health service programs; or

(E) establish a financial reserve to assure its ability to continue providing health services.

(4) The excess (if any) of the amount of funds collected by an entity which is a small health center in accordance with subsection (a)(2) of this section over the amount paid to the United States in accordance with paragraph (1) of this subsection shall be used by the center for the purposes set out in subparagraphs (A) through (E) of paragraph (3) of this subsection or to recruit and retain health manpower to provide

health services to the individuals in the health professional shortage area for which the entity submitted an application.

(5) For purposes of this section, the term ''small health center'' means an entity other than—

(A) a hospital (or part of a hospital);

(B) a public entity; or

(C) an entity that is receiving a grant under section 254b of this title or section 254c of this title, except that such term includes an entity whose grant is less than the total of the amounts, calculated on an annual basis, specified in subparagraphs (A) and (B) of subsection (a)(3) of this section.

This section is referred to in sections 254f, 254i, 254k, 254*l*, 254*l*–1, 254m of this title.

§ 254h. Provision of health services by Corps members

(a) Means of delivery of services; cooperation with other health care providers

In providing health services in a health professional shortage area, Corps members shall utilize the techniques, facilities, and organizational forms most appropriate for the area, population group, medical facility, or other public facility, and shall, to the maximum extent feasible, provide such services (1) to all individuals in, or served by, such health professional shortage area regardless of their ability to pay for the services, and (2) in a manner which is cooperative with other health care providers serving such health professional shortage area.

(b) Utilization of existing health facilities; lease, acquisition, and use of equipment and supplies; permanent and temporary professional services

(1) Notwithstanding any other provision of law, the Secretary may (A) to the maximum extent feasible make such arrangements as he determines necessary to enable Corps members to utilize the health facilities in or serving the health professional shortage area in providing health services; (B) make such arrangements as he determines are necessary for the use of equipment and supplies of the Service and for the lease or acquisition of other equipment and supplies; and (C) secure the permanent or temporary services of physicians, dentists, nurses, administrators, and other health personnel. If there are no health facilities in or serving such area, the Secretary may arrange to have Corps members provide health services in the nearest health facilities of the Service or may lease or otherwise provide facilities in or serving such area for the provision of health services.

(2) If the individuals in or served by a health professional shortage area are being served (as determined under regulations of the Secretary) by a hospital or other health care delivery facility of the Service, the Secretary may, in addition to such other arrangements as he may make under paragraph (1), arrange for the utilization of such hospital or facility by Corps members in providing health services, but only to the extent that such utilization will not impair the delivery of health services and treatment through such hospital or facility to individuals who are entitled to health services and treatment through such hospital or facility.

(c) Loan; purposes; limitations

The Secretary may make one loan to any entity with an approved application under section 254f of this title to assist such entity in meeting the costs of (1) establishing medical, dental, or other health profession practices, including the development of medical practice management systems; (2) acquiring equipment for use in providing health services; and (3) renovating buildings to establish health facilities. No loan may be made under this subsection unless an application therefor is submitted to, and approved by, the Secretary. The amount of any such loan shall be determined by the Secretary, except that no such loan may exceed $50,000.

(d) Property and equipment disposal; fair market value; sale at less than full market value

Upon the expiration of the assignment of all Corps members to a health professional shortage area, the Secretary may (notwithstanding any other provision of law) sell, to any appropriate local entity, equipment and other property of the United States utilized by such members in providing health services. Sales made under this subsection shall be made at the fair market value (as determined by the Secretary) of the equipment or such other property; except that the Secretary may make such sales for a lesser value to an appropriate local entity, if he determines that the entity is financially unable to pay the full market value.

(e) Admitting privileges denied to Corps member by hospital; notice and hearing; denial of Federal funds for violation; "hospital" defined

(1)(A) It shall be unlawful for any hospital to deny an authorized Corps member admitting privileges when such Corps member otherwise meets the professional qualifications established by the hospital for granting such privileges and agrees to abide by the published bylaws of the hospital and the published bylaws, rules, and regulations of its medical staff.

(B) Any hospital which is found by the Secretary, after notice and an opportunity for a hearing on the record, to have violated this subsection shall upon such finding cease, for a period to be determined by the Secretary, to receive and to be eligible to receive any Federal funds under this chapter or under titles XVIII or XIX of the Social Security Act [42 U.S.C. 1395 et seq., 1396 et seq.].

(2) For purposes of this subsection, the term ''hospital'' includes a State or local public hospital, a private profit hospital, a private nonprofit hospital, a general or special hospital, and any other type of hospital (excluding a hospital owned or operated by an agency of the Federal Government), and any related facilities.

In making an assignment of a Corps member to an entity that has had an application approved under section 254f of this title, the Secretary shall, subject to making the assignment in accordance with section 254f–1 of this title, seek to assign to the entity a Corps member who has (and whose spouse, if any, has) characteristics that increase the probability that the member will remain in the health professional shortage area involved after the completion of the period of service in the Corps.

With respect to Corps members generally, this subsection shall be carried out to the extent practicable.

(c) Grants regarding preparation of students for practice

With respect to individuals who have entered into contracts for obligated service under the Scholarship or Loan Repayment Program, the Secretary may make grants to, and enter into contracts with, public and nonprofit private entities (including health professions schools) for the conduct of programs designed to prepare such individuals for the effective provision of primary health services in the health manpower shortage areas to which the individuals are assigned.

Such assistance shall include assistance in obtaining faculty appointments at health professions schools.

(e) Temporary relief from Corps duties

(A) Temporary relief under paragraph (1) may be provided only if the duties of the Corps member involved are assumed by another health professional. With respect to such temporary relief, the duties may be assumed by Corps members or by health professionals who are not Corps members, if the Secretary approves the professionals for such purpose. Any health professional so approved by the Secretary shall, during the period of providing such temporary relief, be deemed to be a Corps member for purposes of section 233 of this title (including for purposes of the remedy described in such section), section 254f(f) of this title, and section 254h(e) of this title.

(B) with respect to the entities to which Corps members have been assigned under section 254f of this title, encourage the entities to facilitate the development of arrangements described in subparagraph (A).

(4) Limitation

(A) compensating a health professional who is not a Corps member for assuming the duties of a Corps member; or

(B) paying the costs of a vacation, or other interests that a Corps member may pursue during the period of temporary relief under such paragraph.

(5) Sole providers of health services

In the case of any Corps member who is the sole provider of health services in the geographic area involved, the Secretary may, from amounts appropriated under section 254k of this title, obligate on behalf of the member such sums as the Secretary determines to be necessary for purposes of providing temporary relief under paragraph (1).

(2) Determination of amount of non-Federal contribution

In determining the amount of non-Federal contributions in cash that a State has provided pursuant to paragraph (1), the Secretary may not include any amounts provided to the State by the Federal Government.

(A) Except as provided in subparagraph (B), the Secretary may not make a grant under subsection (a) of this section unless the State involved agrees that the contracts provided by the State pursuant to paragraph (2) of such subsection will not be provided on terms that are more favorable to health professionals than the most favorable terms that the Secretary is authorized to provide for contracts under the Loan Repayment Program under section 254*l*–1 of this title, including terms regarding—

(i) the annual amount of payments provided on behalf of the professionals regarding educational loans; and

(ii) the availability of remedies for any breach of the contracts by the health professionals involved.

(B) With respect to the limitation established in subparagraph (A) regarding the annual amount of payments that may be provided to a health professional under a contract provided by a State pursuant to subsection (a)(2) of this section, such limitation shall not apply with respect to a contract if—

(2) Reduction in grant relative to number of breached contracts

(A) Before making a grant under subsection (a) of this section to a State for a fiscal year, the Secretary shall determine the number of contracts provided by the State under paragraph (2) of such subsection with respect to which there has been an initial breach by the health professionals involved during the fiscal year preceding the fiscal year for which the State is applying to receive the grant.

(B) Subject to paragraph (3), in the case of a State with 1 or more initial breaches for purposes of subparagraph (A), the Secretary shall reduce the amount of a grant under subsection (a) of this section to the State for the fiscal year involved by an amount equal to the sum of the expenditures of Federal funds made regarding the contracts involved and an amount representing interest on the amount of such expenditures, determined with respect to each contract on the basis of the maximum legal

rate prevailing for loans made during the time amounts were paid under the contract, as determined by the Treasurer of the United States.

(3) Waiver regarding reduction in grant

The Secretary may waive the requirement established in paragraph (2)(B) with respect to the initial breach of a contract if the Secretary determines that such breach by the health professional involved was attributable solely to the professional having a serious illness.

(iv) in the case of any laboratory accredited by the body which has had its accreditation denied, suspended, withdrawn, or revoked or which has had any other action taken against it by the accrediting body, the accrediting body agrees to submit to the Secretary the name of such laboratory within 30 days of the action taken,

(v) the accreditation body agrees to notify the Secretary at least 30 days before it changes its standards, and

(vi) if the accreditation body has its approval withdrawn by the Secretary, the body agrees to notify each laboratory accredited by the body of the withdrawal within 10 days of the withdrawal.

(B) Criteria and procedures

The Secretary shall promulgate criteria and procedures for approving an accreditation body and for withdrawing such approval if the Secretary determines that the accreditation body does not meet the requirements of subparagraph (A).

(C) Effect of withdrawal of approval

If the Secretary withdraws the approval of an accreditation body under subparagraph (B), the certificate of any laboratory accredited by the body shall continue in effect for 60 days after the laboratory receives notification of the withdrawal of the approval, except that the Secretary may extend such period for a laboratory if it determines that the laboratory submitted an application for accreditation or a certificate in a timely manner after receipt of the notification of the withdrawal of approval. If an accreditation body withdraws or revokes the accreditation of a laboratory, the certificate of the laboratory shall continue in effect—

(i) for 45 days after the laboratory receives notice of the withdrawal or revocation of the accreditation, or

(ii) until the effective date of any action taken by the Secretary under subsection (i) of this section.

(D) Evaluations

The Secretary shall evaluate annually the performance of each approved accreditation body by—

(i) inspecting under subsection (g) of this section a sufficient number of the laboratories accredited by such body to allow a reasonable estimate of the performance of such body, and

(ii) such other means as the Secretary determines appropriate.

(3) Report

The Secretary shall annually prepare and submit, to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate, a report that describes the results of the evaluation conducted under paragraph (2)(D).

(f) Standards

(1) In general

The Secretary shall issue standards to assure consistent performance by laboratories issued a certificate under this section of valid and reliable laboratory examinations and other procedures. Such standards shall require each laboratory issued a certificate under this section—

(A) to maintain a quality assurance and quality control program adequate and appropriate for the validity and reliability of the laboratory examinations and other procedures of the laboratory and to meet requirements relating to the proper collection, transportation, and storage of specimens and the reporting of results,

(B) to maintain records, equipment, and facilities necessary for the proper and effective operation of the laboratory,

(C) in performing and carrying out its laboratory examinations and other procedures, to use only personnel meeting such qualifications as the Secretary may establish for the direction, supervision, and performance of examinations and procedures within the laboratory, which qualifications shall take into consideration competency, training, experience, job performance, and education and which qualifications shall, as appropriate, be different on the basis of the type of examinations and procedures being performed by the laboratory and the risks and consequences of erroneous results associated with such examinations and procedures,

(D) to qualify under a proficiency testing program meeting the standards established by the Secretary under paragraph (3), and

(E) to meet such other requirements as the Secretary determines necessary to assure consistent performance by such laboratories of accurate and reliable laboratory examinations and procedures.

(2) Considerations

In developing the standards to be issued under paragraph (1), the Secretary shall, within the flexibility provided under subparagraphs (A) through (E) of paragraph (1), take into consideration—

(A) the examinations and procedures performed and the methodologies employed,

(B) the degree of independent judgment involved,

(C) the amount of interpretation involved,

(D) the difficulty of the calculations involved,

(E) the calibration and quality control requirements of the instruments used,

(F) the type of training required to operate the instruments used in the methodology, and

(G) such other factors as the Secretary considers relevant.

(3) Proficiency testing program

(A) In general

The Secretary shall establish standards for the proficiency testing programs for laboratories issued a certificate under this section which are conducted by the Secretary, conducted by an organization approved under subparagraph (C), or conducted by an approved accrediting body. The standards shall require that a laboratory issued a certificate

under this section be tested for each examination and procedure conducted within a category of examinations or procedures for which it has received a certificate, except for examinations and procedures for which the Secretary has determined that a proficiency test cannot reasonably be developed. The testing shall be conducted on a quarterly basis, except where the Secretary determines for technical and scientific reasons that a particular examination or procedure may be tested less frequently (but not less often than twice per year).

(B) Criteria

The standards established under subparagraph (A) shall include uniform criteria for acceptable performance under a proficiency testing program, based on the available technology and the clinical relevance of the laboratory examination or other procedure subject to such program. The criteria shall be established for all examinations and procedures and shall be uniform for each examination and procedure. The standards shall also include a system for grading proficiency testing performance to determine whether a laboratory has performed acceptably for a particular quarter and acceptably for a particular examination or procedure or category of examination or procedure over a period of successive quarters.

(C) Approved proficiency testing programs

For the purpose of administering proficiency testing programs which meet the standards established under subparagraph (A), the Secretary shall approve a proficiency testing program offered by a private nonprofit organization or a State if the program meets the standards established under subparagraph (A) and the organization or State provides technical assistance to laboratories seeking to qualify under the program. The Secretary shall evaluate each program approved under this subparagraph annually to determine if the program continues to meet the standards established under subparagraph (A) and shall withdraw the approval of any program that no longer meets such standards.

(D) Onsite testing

The Secretary shall perform, or shall direct a program approved under subparagraph (C) to perform, onsite proficiency testing to assure compliance with the requirements of subsection (d)(5) of this section. The Secretary shall perform, on an onsite or other basis, proficiency testing to evaluate the performance of a proficiency testing program approved under subparagraph (C) and to assure quality performance by a laboratory.

(E) Training, technical assistance, and enhanced proficiency testing

The Secretary may, in lieu of or in addition to actions authorized under subsection (h), (i), or (j) of this section, require any laboratory which fails to perform acceptably on an individual examination and procedure or a category of examination and procedures—

(i) to undertake training and to obtain the necessary technical assistance to meet the requirements of the proficency[2] testing program,

(ii) to enroll in a program of enhanced proficiency testing, or

(iii) to undertake any combination of the training, technical assistance, or testing described in clauses (i) and (ii).

(F) Testing results

The Secretary shall establish a system to make the results of the proficiency testing programs subject to the standards established by the Secretary under subparagraph (A) available, on a reasonable basis, upon request of any person. The Secretary shall include with results made available under this subparagraph such explanatory information as may be appropriate to assist in the interpretation of such results.

(4) National standards for quality assurance in cytology services

(A) Establishment

The Secretary shall establish national standards for quality assurance in cytology services designed to assure consistent performance by laboratories of valid and reliable cytological services.

(B) Standards

The standards established under subparagraph (A) shall include—

(i) the maximum number of cytology slides that any individual may screen in a 24-hour period,

(ii) requirements that a clinical laboratory maintain a record of (I) the number of cytology slides screened during each 24-hour period by each individual who examines cytology slides for the laboratory, and (II) the number of hours devoted during each 24-hour period to screening cytology slides by such individual,

(iii) criteria for requiring rescreening of cytological preparations, such as (I) random rescreening of cytology specimens determined to be in the benign category, (II) focused rescreening of such preparations in high risk groups, and (III) for each abnormal cytological result, rescreening of all prior cytological specimens for the patient, if available,

(iv) periodic confirmation and evaluation of the proficiency of individuals involved in screening or interpreting cytological preparations, including announced and unannounced on-site proficiency testing of such individuals, with such testing to take place, to the extent practicable, under normal working conditions,

(v) procedures for detecting inadequately prepared slides, for assuring that no cytological diagnosis is rendered on such slides, and for notifying referring physicians of such slides,

(vi) requirements that all cytological screening be done on the premises of a laboratory that is certified under this section,

[2] So in original. Probably should be ''proficiency''.

(vii) requirements for the retention of cytology slides by laboratories for such periods of time as the Secretary considers appropriate, and

(viii) standards requiring periodic inspection of cytology services by persons capable of evaluating the quality of cytology services.

(g) Inspections

(1) In general

The Secretary may, on an announced or unannounced basis, enter and inspect, during regular hours of operation, laboratories which have been issued a certificate under this section. In conducting such inspections the Secretary shall have access to all facilities, equipment, materials, records, and information that the Secretary determines have a bearing on whether the laboratory is being operated in accordance with this section. As part of such an inspection the Secretary may copy any such material or require to it[3] be submitted to the Secretary. An inspection under this paragraph may be made only upon presenting identification to the owner, operator, or agent in charge of the laboratory being inspected.

(2) Compliance with requirements and standards

The Secretary shall conduct inspections of laboratories under paragraph (1) to determine their compliance with the requirements of subsection (d) of this section and the standards issued under subsection (f) of this section. Inspections of laboratories not accredited under subsection (e) of this section shall be conducted on a biennial basis or with such other frequency as the Secretary determines to be necessary to assure compliance with such requirements and standards. Inspections of laboratories accredited under subsection (e) of this section shall be conducted on such basis as the Secretary determines is necessary to assure compliance with such requirements and standards.

(h) Intermediate sanctions

(1) In general

If the Secretary determines that a laboratory which has been issued a certificate under this section no longer substantially meets the requirements for the issuance of a certificate, the Secretary may impose intermediate sanctions in lieu of the actions authorized by subsection (i) of this section.

(2) Types of sanctions

The intermediate sanctions which may be imposed under paragraph (1) shall consist of—

(A) directed plans of correction,

(B) civil money penalties in an amount not to exceed $10,000 for each violation listed in subsection (i)(1) of this section or for each day of substantial noncompliance with the requirements of this section,

(C) payment for the costs of onsite monitoring, or

(D) any combination of the actions described in subparagraphs (A), (B), and (C).

(3) Procedures

The Secretary shall develop and implement procedures with respect to when and how each of the intermediate sanctions is to be imposed under paragraph (1). Such procedures shall provide for notice to the laboratory and a reasonable opportunity to respond to the proposed sanction and appropriate procedures for appealing determinations relating to the imposition of intermediate sanctions[4]

(i) Suspension, revocation, and limitation

(1) In general

Except as provided in paragraph (2), the certificate of a laboratory issued under this section may be suspended, revoked, or limited if the Secretary finds, after reasonable notice and opportunity for hearing to the owner or operator of the laboratory, that such owner or operator or any employee of the laboratory—

(A) has been guilty of misrepresentation in obtaining the certificate,

(B) has performed or represented the laboratory as entitled to perform a laboratory examination or other procedure which is not within a category of laboratory examinations or other procedures authorized in the certificate,

(C) has failed to comply with the requirements of subsection (d) of this section or the standards prescribed by the Secretary under subsection (f) of this section,

(D) has failed to comply with reasonable requests of the Secretary for—

(i) any information or materials, or

(ii) work on materials,

that the Secretary concludes is necessary to determine the laboratory's continued eligibility for its certificate or continued compliance with the Secretary's standards under subsection (f) of this section,

(E) has refused a reasonable request of the Secretary, or any Federal officer or employee duly designated by the Secretary, for permission to inspect the laboratory and its operations and pertinent records during the hours the laboratory is in operation,

(F) has violated or aided and abetted in the violation of any provisions of this section or of any regulation promulgated thereunder, or

(G) has not complied with an intermediate sanction imposed under subsection (h) of this section.

(2) Action before a hearing

If the Secretary determines that—

(A) the failure of a laboratory to comply with the standards of the Secretary under subsection (f) of this section presents an imminent and serious risk to human health, or

(B) a laboratory has engaged in an action described in subparagraph (D) or (E) of paragraph (1),

the Secretary may suspend or limit the certificate of the laboratory before holding a hearing under paragraph (1) regarding such failure or refusal. The opportunity for a hear-

ing shall be provided no later than 60 days from the effective date of the suspension or limitation. A suspension or limitation under this paragraph shall stay in effect until the decision of the Secretary made after the hearing under paragraph (1).

(3) Ineligibility to own or operate laboratories after revocation

No person who has owned or operated a laboratory which has had its certificate revoked may, within 2 years of the revocation of the certificate, own or operate a laboratory for which a certificate has been issued under this section. The certificate of a laboratory which has been excluded from participation under the medicare program under title XVIII of the Social Security Act [42 U.S.C. 1395 et seq.] because of actions relating to the quality of the laboratory shall be suspended for the period the laboratory is so excluded.

(4) Improper referrals

Any laboratory that the Secretary determines intentionally refers its proficiency testing samples to another laboratory for analysis shall have its certificate revoked for at least one year and shall be subject to appropriate fines and penalties as provided for in subsection (h) of this section.

(j) Injunctions

Whenever the Secretary has reason to believe that continuation of any activity by a laboratory would constitute a significant hazard to the public health the Secretary may bring suit in the district court of the United States for the district in which such laboratory is situated to enjoin continuation of such activity. Upon proper showing, a temporary injunction or restraining order against continuation of such activity pending issuance of a final order under this subsection shall be granted without bond by such court.

(k) Judicial review

(1) Petition

Any laboratory which has had an intermediate sanction imposed under subsection (h) of this section or has had its certificate suspended, revoked, or limited under subsection (i) of this section may, at any time within 60 days after the date the action of the Secretary under subsection (i) or (h) of this section becomes final, file a petition with the United States court of appeals for the circuit wherein the laboratory has its principal place of business for judicial review of such action. As soon as practicable after receipt of the petition, the clerk of the court shall transmit a copy of the petition to the Secretary or other officer designated by the Secretary for that purpose. As soon as practicable after receipt of the copy, the Secretary shall file in the court the record on which the action of the Secretary is based, as provided in section 2112 of title 28.

(2) Additional evidence

If the petitioner applies to the court for leave to adduce additional evidence, and shows to the satisfaction of the court that such additional evidence is material and that there were reasonable grounds for the failure to adduce such evidence in the proceeding before the Secretary, the court may order such additional evidence (and evidence in rebuttal of such additional evidence) to be taken before the Secretary, and to be adduced upon the hearing in such manner and upon such terms and conditions as the court may deem proper. The Secretary may modify the findings of the Secretary as to the facts, or make new findings, by reason of the additional evidence so taken, and the Secretary shall file such modified or new findings, and the recommendations of the Secretary, if any, for the modification or setting aside of his original action, with the return of such additional evidence.

(3) Judgment of court

Upon the filing of the petition referred to in paragraph (1), the court shall have jurisdiction to affirm the action, or to set it aside in whole or in part, temporarily or permanently. The findings of the Secretary as to the facts, if supported by substantial evidence, shall be conclusive.

(4) Finality of judgment

The judgment of the court affirming or setting aside, in whole or in part, any such action of the Secretary shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28.

(*l*) Sanctions

Any person who intentionally violates any requirement of this section or any regulation promulgated thereunder shall be imprisoned for not more than one year or fined under title 18, or both, except that if the conviction is for a second or subsequent violation of such a requirement such person shall be imprisoned for not more than 3 years or fined in accordance with title 18, or both.

(m) Fees

(1) Certificate fees

The Secretary shall require payment of fees for the issuance and renewal of certificates, except that the Secretary shall only require a nominal fee for the issuance and renewal of certificates of waiver.

(2) Additional fees

The Secretary shall require the payment of fees for inspections of laboratories which are not accredited and for the cost of performing proficiency testing on laboratories which do not participate in proficiency testing programs approved under subsection (f)(3)(C) of this section.

(3) Criteria

(A) Fees under paragraph (1)

Fees imposed under paragraph (1) shall be sufficient to cover the general costs of administering this section, including evaluating and monitoring proficiency testing programs approved under subsection (f) of this section and accrediting bodies and implementing and monitoring compliance with the requirements of this section.

(B) Fees under paragraph (2)

Fees imposed under paragraph (2) shall be sufficient to cover the cost of the Secretary in carrying out the inspections and proficiency testing described in paragraph (2).

(C) Fees imposed under paragraphs (1) and (2)

Fees imposed under paragraphs (1) and (2) shall vary by group or classification of laboratory, based on such considerations as the Secretary determines are relevant, which may include the dollar volume and scope of the testing being performed by the laboratories.

(n) Information

On April 1, 1990 and annually thereafter, the Secretary shall compile and make available to physicians and the general public information, based on the previous calendar year, which the Secretary determines is useful in evaluating the performance of a laboratory, including—

(1) a list of laboratories which have been convicted under Federal or State laws relating to fraud and abuse, false billings, or kickbacks,

(2) a list of laboratories—

(A) which have had their certificates revoked, suspended, or limited under subsection (i) of this section, or

(B) which have been the subject of a sanction under subsection (*l*) of this section,

together with a statement of the reasons for the revocation, suspension, limitation, or sanction,

(3) a list of laboratories subject to intermediate sanctions under subsection (h) of this section together with a statement of the reasons for the sanctions,

(4) a list of laboratories whose accreditation has been withdrawn or revoked together with a statement of the reasons for the withdrawal or revocation,

(5) a list of laboratories against which the Secretary has taken action under subsection (j) of this section together with a statement of the reasons for such action, and

(6) a list of laboratories which have been excluded from participation under title XVIII or XIX of the Social Security Act [42 U.S.C. 1395 et seq., 1396 et seq.].

The information to be compiled under paragraphs (1) through (6) shall be information for the calendar year preceding the date the information is to be made available to the public and shall be accompanied by such explanatory information as may be appropriate to assist in the interpretation of the information compiled under such paragraphs.

(*o*) Delegation

In carrying out this section, the Secretary may, pursuant to agreement, use the services or facilities of any Federal or State or local public agency or nonprofit private organization, and may pay therefor in advance or by way of reimbursement, and in such installments, as the Secretary may determine.

(p) State laws

(1) Except as provided in paragraph (2), nothing in this section shall be construed as affecting the power of any State to enact and enforce laws relating to the matters covered by this section to the extent that such laws are not inconsistent with this section or with the regulations issued under this section.

(2) If a State enacts laws relating to matters covered by this section which provide for requirements equal to or more stringent than the requirements of this section or than the regulations issued under this section, the Secretary may exempt clinical laboratories in that State from compliance with this section.

(q) Consultations

In carrying out this section, the Secretary shall consult with appropriate private organizations and public agencies.

(a) In general

(1) Development

Not later than 2 years after October 24, 1992, the Secretary, through the Centers for Disease Control, shall develop a model program for the certification of embryo laboratories (referred to in this section as a ''certification program'') to be carried out by the States.

(2) Consultation

In developing the certification program under paragraph (1), the Secretary shall consult with appropriate consumer and professional organizations with expertise in using, providing, and evaluating professional services and embryo laboratories associated with the assisted reproductive technology programs.

(b) Distribution

The Secretary shall distribute a description of the certification program to—

(1) the Governor of each State,

(2) the presiding officers of each State legislature,

(3) the public health official of each State, and

(4) the official responsible in each State for the operation of the State's contract with the Secretary under section 1395aa of this title,

and shall encourage such officials to assist in the State adopting such program.

(c) Requirements

The certification program shall include the following requirements:

(1) Administration

The certification program shall be administered by the State and shall provide for the inspection and certification of embryo laboratories in the State by the State or by approved accreditation organizations.

(2) Application requirements

The certification program shall provide for the submission of an application to a State by an embryo laboratory for certification, in such form as may be specified by the State. Such an application shall include—

(A) assurances satisfactory to the State that the embryo laboratory will be operated in accordance with the standards under subsection (d) of this section,

(B) a report to the State identifying the assisted reproductive technology programs with which the laboratory is associated, and

(C) such other information as the State finds necessary.

An embryo laboratory which meets the requirements of section 263a of this title shall, for the purposes of subparagraph (A) be considered in compliance with the standards referred to in such subparagraph which are the same as the standards in effect under section 263a of this title.

(d) Standards

The certification program shall include the following standards developed by the Secretary:

(1) A standard to assure consistent performance of procedures by each embryo laboratory certified under the certification program or by an approved accreditation organization in a State which has not adopted the certification program.

(2) A standard for a quality assurance and a quality control program to assure valid, reliable, and reproduceable[1] procedures in the laboratory.

(3) A standard for the maintenance of records (on a program by program basis) on laboratory tests and procedures performed, including the scientific basis of, and the methodology used for, the tests, procedures, and preparation of any standards or controls, criteria for acceptable and unacceptable outcomes, criteria for sample rejection, and procedures for safe sample disposal.

(4) A standard for the maintenance of written records on personnel and facilities necessary for proper and effective operation of the laboratory, schedules of preventive maintenance, function verification for equipment, and the release of such records to the State upon demand.

(5) A standard for the use of such personnel who meet such qualifications as the Secretary may develop.

(e) Certification under State programs

A State may qualify to adopt the certification program if the State has submitted an application to the Secretary to adopt such program and the Secretary has approved the application. Such an application shall include—

(1) assurances by the State satisfactory to the Secretary that the certification program within the State meets the requirements of this section,

(2) an agreement to make such reports as the Secretary may require, and

(3) information about any proposed use of accreditation organizations under subsection (g)[2] of this section.

(f) Use of accreditation organizations

A State which has adopted the certification program may use accreditation organizations approved under section 263a–3 of this title to inspect and certify embryo laboratories.

(g) Inspections

(1) In general

A State which qualifies to adopt the certification program within the State shall conduct inspections in accordance with paragraph (2) to determine if laboratories in the State meet the requirements of such program. Such inspections shall be carried out by the State or by accreditation organizations used by the State under subsection (g)[2] of this section.

(2) Requirements

Inspections carried out under paragraph (1) shall—

(A) be periodic and unannounced, or

(B) be announced in such circumstances as the Secretary determines will not diminish the likelihood of discovering deficiencies in the operations of a laboratory.

Before making a determination under subparagraph (B), the Secretary shall make public, in such manner as to facilitate comment from any person (including any Federal or other public agency), a proposal indicating the circumstances under which announced inspections would be permitted.

(3) Results

The specific findings, including deficiencies, identified in an inspection carried out under paragraph (1) and any subsequent corrections to those deficiencies shall be announced and made available to the public upon request beginning no later than 60 days after the date of the inspection.

(h) Validation inspections

(1) In general

The Secretary may enter and inspect, during regular hours of operation, embryo laboratories—

(A) which have been certified by a State under the certification program, or

(B) which have been certified by an accreditation organization approved by the Secretary under section 263a–3 of this title,

for the purpose of determining whether the laboratory is being operated in accordance with the standards in subsection (d) of this section.

---

[1] So in original. Probably should be ''reproducible''.

[2] So in original. Probably should be subsection ''(f)''.

(2) Access to facilities and records

In conducting an inspection of an embryo laboratory under paragraph (1), the Secretary shall have access to all facilities, equipment, materials, records, and information which the Secretary determines is necessary to determine if such laboratory is being operated in accordance with the standards in subsection (d) of this section. As part of such an inspection, the Secretary may copy any material, record, or information inspected or require it to be submitted to the Secretary. Such an inspection may be made only upon the presentation of identification to the owner, operator, or agent in charge of the laboratory being inspected.

(3) Failure to comply

If the Secretary determines as a result of an inspection under paragraph (1) that the embryo laboratory is not in compliance with the standards in subsection (d) of this section, the Secretary shall—

(A) notify the State in which the laboratory is located and, if appropriate, the accreditation organization which certified the laboratory,

(B) make available to the public the results of the inspection,

(C) conduct additional inspections of other embryo laboratories under paragraph (1) to determine if—

(i) such State in carrying out the certification program is reliably identifying the deficiencies of such laboratory, or

(ii) the accreditation organization which certified such laboratories is reliably identifying such deficencies,[3] and

(D) if the Secretary determines—

(i) that such State in carrying out the certification program has not met the requirements applicable to such program, or

(ii) the accreditation organization which certified such laboratory has not met the requirements of section 263a–3 of this title,

the Secretary may revoke the approval of the State certification program or revoke the approval of such accreditation organization.

(i) Limitation

(1) Secretary

In developing the certification program, the Secretary may not establish any regulation, standard, or requirement which has the effect of exercising supervision or control over the practice of medicine in assisted reproductive technology programs.

(2) State

In adopting the certification program, a State may not establish any regulation, standard, or requirement which has the effect of exercising supervision or control over the practice of medicine in assisted reproductive technology programs.

(j) Term

The term of a certification issued by a State or an accreditation organization in a State shall be prescribed by the Secretary in the certification program and shall be valid for a period of time to be defined by the Secretary through the public comment process described in subsection (h)(2)[4] of this section. The Secretary shall provide an application for recertification to be submitted at the time of changes in the ownership of a certified laboratory or changes in the administration of such a laboratory.

§ 263b. Certification of mammography facilities

(a) Definitions

As used in this section:

(1) Accreditation body

The term ''accreditation body'' means a body that has been approved by the Secretary under subsection (e)(1)(A) of this section to accredit mammography facilities.

(2) Certificate

(3) Facility

(A) In general

The term ''facility'' means a hospital, outpatient department, clinic, radiology practice, or mobile unit, an office of a physician, or other facility as determined by the Secretary, that conducts breast cancer screening or diagnosis through mammography activities. Such term does not include a facility of the Department of Veterans Affairs.

(B) Activities

For the purposes of this section, the activities of a facility include the operation of equipment to produce the mammogram, the processing of the film, the initial interpretation of the mammogram and the viewing conditions for that interpretation. Where procedures such as the film processing, or the interpretation of the mammogram are performed in a location different from where the mammogram is performed, the facility performing the mammogram shall be responsible for meeting the quality standards described in subsection (f) of this section.

(4) Inspection

The term ''inspection'' means an onsite evaluation of the facility by the Secretary, or State agency on behalf of the Secretary.

(5) Mammogram

The term ''mammogram'' means a radiographic image produced through mammography.

(6) Mammography

The term ''mammography'' means radiography of the breast.

(7) Survey

The term ''survey'' means an onsite physics consultation and evaluation performed by a medical physicist as described in subsection (f)(1)(E) of this section.

(b) Certificate requirement

(1) Certificate

No facility may conduct an examination or procedure described in paragraph (2) involving mammography after October 1, 1994, unless the facility obtains—

(A) a certificate—

(i) that is issued, and, if applicable, renewed, by the Secretary in accordance with subsection (c)(1) of this section;

(ii) that is applicable to the examination or procedure to be conducted; and

(iii) that is displayed prominently in such facility; or

(B) a provisional certificate—

(i) that is issued by the Secretary in accordance with subsection (c)(2) of this section;

(ii) that is applicable to the examination or procedure to be conducted; and

(iii) that is displayed prominently in such facility.

The reference to a certificate in this section includes a provisional certificate.

(2) Examination or procedure

A facility shall obtain a certificate in order to—

(A) operate radiological equipment that is used to image the breast;

(B) provide for the interpretation of a mammogram produced by such equipment at the facility or under arrangements with a qualified individual at a facility different from where the mammography examination is performed; and

A provisional certificate may be in effect no longer than 6 months from the date it is issued, except that it may be extended once for a period of not more than 90 days if the owner, lessor, or agent of the facility demonstrates to the Secretary that without such extension access to mammography in the geographic area served by the facility would be significantly reduced and if the owner, lessor, or agent of the facility will describe in a report to the Secretary steps that will be taken to qualify the facility for certification under subsection (b)(1) of this section.

(d) Application for certificate

(1) Submission

The Secretary may issue or renew a certificate for a facility if—

(B) standards that require use of radiological equipment specifically designed for mammography, including radiologic standards and standards for other equipment and materials used in conjunction with such equipment;

(C) a requirement that personnel who perform mammography—

(i)(I) be licensed by a State to perform radiological procedures; or

(II) be certified as qualified to perform radiological procedures by an organization described in paragraph (2)(A); and

Nothing in this section limits the authority of the Secretary to conduct limited reinspections of facilities found not to be in compliance with this section.

(h) Sanctions

(1) In general

In order to promote voluntary compliance with this section, the Secretary may, in lieu of taking the actions authorized by subsection (i) of this section, impose one or more of the following sanctions:

(A) Directed plans of correction which afford a facility an opportunity to correct violations in a timely manner.

(B) Payment for the cost of onsite monitoring.

(2) Civil money penalties

The Secretary may assess civil money penalties in an amount not to exceed $10,000 for—

(A) failure to obtain a certificate as required by subsection (b) of this section,

(B) each failure by a facility to substantially comply with, or each day on which a facility fails to substantially comply with, the standards established under subsection (f) of this section or the requirements described in subclauses (I) through (III) of subsection (d)(1)(B)(ii) of this section, and

(C) each violation, or for each aiding and abetting in a violation of, any provision of, or regulation promulgated under, this section by an owner, operator, or any employee of a facility required to have a certificate.

(3) Procedures

The Secretary shall develop and implement procedures with respect to when and how each

of the sanctions is to be imposed under paragraphs (1) and (2). Such procedures shall provide for notice to the owner or operator of the facility and a reasonable opportunity for the owner or operator to respond to the proposed sanctions and appropriate procedures for appealing determinations relating to the imposition of sanctions.

(i) Suspension and revocation

(1) In general

The certificate of a facility issued under subsection (c) of this section may be suspended or revoked if the Secretary finds, after providing, except as provided in paragraph (2), reasonable notice and an opportunity for a hearing to the owner or operator of the facility, that the owner, operator, or any employee of the facility—

(A) has been guilty of misrepresentation in obtaining the certificate;

(B) has failed to comply with the requirements of subsection (d)(1)(B)(ii)(III) of this section or the standards established by the Secretary under subsection (f) of this section;

(C) has failed to comply with reasonable requests of the Secretary for any record, information, report, or material that the Secretary concludes is necessary to determine the continued eligibility of the facility for a certificate or continued compliance with the standards established under subsection (f) of this section;

(D) has refused a reasonable request of the Secretary, any Federal officer or employee duly designated by the Secretary, or any State officer or employee duly designated by the State, for permission to inspect the facility or the operations and pertinent records of the facility in accordance with subsection (g) of this section;

(E) has violated or aided and abetted in the violation of any provision of, or regulation promulgated under, this section; or

(F) has failed to comply with a sanction imposed under subsection (h) of this section.

(2) Action before a hearing

(A) In general

The Secretary may suspend the certificate of the facility before holding a hearing required by paragraph (1) if the Secretary makes the finding described in paragraph (1) and determines that—

(i) the failure of a facility to comply with the standards established by the Secretary under subsection (f) of this section presents a serious risk to human health; or

(ii) a facility has engaged in an action described in subparagraph (D) or (E) of paragraph (1).

(B) Hearing

If the Secretary suspends a certificate under subparagraph (A), the Secretary shall provide an opportunity for a hearing to the owner or operator of the facility not later than 60 days from the effective date of the suspension. The suspension shall remain in effect until the decision of the Secretary made after the hearing.

(3) Ineligibility to own or operate facilities after revocation

If the Secretary revokes the certificate of a facility on the basis of an act described in paragraph (1), no person who owned or operated the facility at the time of the act may, within 2 years of the revocation of the certificate, own or operate a facility that requires a certificate under this section.

(j) Injunctions

If the Secretary determines that—

(1) continuation of any activity related to the provision of mammography by a facility would constitute a serious risk to human health, the Secretary may bring suit in the district court of the United States for the district in which the facility is situated to enjoin continuation of the activity; and

(2) a facility is operating without a certificate as required by subsection (b) of this section, the Secretary may bring suit in the district court of the United States for the district in which the facility is situated to enjoin the operation of the facility.

Upon a proper showing, the district court shall grant a temporary injunction or restraining order against continuation of the activity or against operation of a facility, as the case may be, without requiring the Secretary to post a bond, pending issuance of a final order under this subsection.

(k) Judicial review

(1) Petition

If the Secretary imposes a sanction on a facility under subsection (h) of this section or suspends or revokes the certificate of a facility under subsection (i) of this section, the owner or operator of the facility may, not later than 60 days after the date the action of the Secretary becomes final, file a petition with the United States court of appeals for the circuit in which the facility is situated for judicial review of the action. As soon as practicable after receipt of the petition, the clerk of the court shall transmit a copy of the petition to the Secretary or other officer designated by the Secretary. As soon as practicable after receipt of the copy, the Secretary shall file in the court the record on which the action of the Secretary is based, as provided in section 2112 of title 28.

(2) Additional evidence

If the petitioner applies to the court for leave to adduce additional evidence, and shows to the satisfaction of the court that the additional evidence is material and that there were reasonable grounds for the failure to adduce such evidence in the proceeding before the Secretary, the court may order the additional evidence (and evidence in rebuttal of the additional evidence) to be taken before the Secretary, and to be adduced upon the hearing in such manner and upon such terms and conditions as the court may determine to be proper. The Secretary may modify the findings of the Secretary as to the facts, or make new findings, by reason of the additional evidence so taken, and the Secretary shall file the

modified or new findings, and the recommendations of the Secretary, if any, for the modification or setting aside of the original action of the Secretary with the return of the additional evidence.

(3) Judgment of court

Upon the filing of the petition referred to in paragraph (1), the court shall have jurisdiction to affirm the action, or to set the action aside in whole or in part, temporarily or permanently. The findings of the Secretary as to the facts, if supported by substantial evidence, shall be conclusive.

(4) Finality of judgment

The judgment of the court affirming or setting aside, in whole or in part, any action of the Secretary shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification, as provided in section 1254 of title 28.

With the approval of the President he shall from time to time select suitable sites for and establish such additional stations, grounds, and anchorages in the States and possessions of the United States as in his judgment are necessary to prevent the introduction of communicable diseases into the States and possessions of the United States.

(b) Hours of inspection

The Surgeon General shall establish the hours during which quarantine service shall be performed at each quarantine station, and, upon application by any interested party, may establish quarantine inspection during the twenty-four hours of the day, or any fraction thereof, at such quarantine stations as, in his opinion, require such extended service. He may restrict the performance of quarantine inspection to hours of daylight for such arriving vessels as cannot, in his opinion, be satisfactorily inspected during hours of darkness. No vessel shall be required to undergo quarantine inspection during the hours of darkness, unless the quarantine officer at such quarantine station shall deem an immediate inspection necessary to protect the public health. Uniformity shall not be required in the hours during which quarantine inspection may be obtained at the various ports of the United States.

(c) Overtime pay for employees of Service

The Surgeon General shall fix a reasonable rate of extra compensation for overtime services of employees of the United States Public Health Service, Foreign Quarantine Division, performing overtime duties including the operation of vessels, in connection with the inspection or quarantine treatment of persons (passengers and crews), conveyances, or goods arriving by land,

water, or air in the United States or any place subject to the jurisdiction thereof, hereinafter referred to as ''employees of the Public Health Service'', when required to be on duty between the hours of 6 o'clock postmeridian and 6 o'clock antemeridian (or between the hours of 7 o'clock postmeridian and 7 o'clock antemeridian at stations which have a declared workday of from 7 o'clock antemeridian to 7 o'clock postmeridian), or on Sundays or holidays, such rate, in lieu of compensation under any other provision of law, to be fixed at two times the basic hourly rate for each hour that the overtime extends beyond 6 o'clock (or 7 o'clock as the case may be) postmeridian, and two times the basic hourly rate for each overtime hour worked on Sundays or holidays. As used in this subsection, the term ''basic hourly rate'' shall mean the regular basic rate of pay which is applicable to such employees for work performed within their regular scheduled tour of duty.

(d) Payment of extra compensation to United States; bond or deposit to assure payment; deposit of moneys to credit of appropriation

(1) The said extra compensation shall be paid to the United States by the owner, agent, consignee, operator, or master or other person in charge of any conveyance, for whom, at his request, services as described in this subsection (hereinafter referred to as overtime service) are performed. If such employees have been ordered to report for duty and have so reported, and the requested services are not performed by reason of circumstances beyond the control of the employees concerned, such extra compensation shall be paid on the same basis as though the overtime services had actually been performed during the period between the time the employees were ordered to report for duty and did so report, and the time they were notified that their services would not be required, and in any case as though their services had continued for not less than one hour. The Surgeon General with the approval of the Secretary of Health and Human Services may prescribe regulations requiring the owner, agent, consignee, operator, or master or other person for whom the overtime services are performed to file a bond in such amounts and containing such conditions and with such sureties, or in lieu of a bond, to deposit money or obligations of the United States in such amount, as will assure the payment of charges under this subsection, which bond or deposit may cover one or more transactions or all transactions during a specified period: *Provided*, That no charges shall be made for services performed in connection with the inspection of (1) persons arriving by international highways, ferries, bridges, or tunnels, or the conveyances in which they arrive, or (2) persons arriving by aircraft or railroad trains, the operations of which are covered by published schedules, or the aircraft or trains in which they arrive, or (3) persons arriving by vessels operated between Canadian ports and ports on Puget Sound or operated on the Great Lakes and connecting waterways, the operations of which are covered by published schedules, or the vessels in which they arrive.

(2) Moneys collected under this subsection shall be deposited in the Treasury of the United States to the credit of the appropriation charged with the expense of the services, and the appropriations so credited shall be available for the payment of such compensation to the said employees for services so rendered.

(b) Functions

The Registry shall—

(2) establish a system for patient advocacy, separate from mechanisms for donor advocacy, that directly assists patients, their families, and their physicians in the search for an unrelated marrow donor;

(3) increase the representation of individuals from racial and ethnic minority groups in the pool of potential donors for the Registry in order to enable an individual in a minority group, to the extent practicable, to have a comparable chance of finding a suitable unrelated donor as would an individual not in a minority group;

(4) provide information to physicians, other health care professionals, and the public regarding bone marrow transplantation;

(5) recruit potential bone marrow donors;

(6) collect, analyze, and publish data concerning bone marrow donation and transplantation; and

(7) support studies and demonstration projects for the purpose of increasing the number of individuals, especially minorities, who are willing to be marrow donors.

(1) quality standards and standards for tissue typing, obtaining the informed consent of donors, and providing patient advocacy;

(3) procedures to ensure the proper collection and transportation of the marrow;

(4) standards that require the provision of information to patients, their families, and their physicians at the start of the search process concerning—

(A) the resources available through the Registry;

(B) all other marrow donor registries meeting the standards described in this paragraph; and

(C) in the case of the Registry—

(i) the comparative costs of all charges by marrow transplant centers incurred by patients prior to transplantation; and

(ii) the success rates of individual marrow transplant centers;

(5) standards that—

(A) require the establishment of a system of strict confidentiality of records relating to the identity, address, HLA type, and managing marrow donor center for marrow donors and potential marrow donors; and

(B) prescribe the purposes for which the records described in subparagraph (A) may be disclosed, and the circumstances and extent of the disclosure; and

(6) in the case of a marrow donor center or marrow donor registry participating in the program, procedures to ensure the establishment of a method for integrating donor files, searches, and general procedures of the center or registry with the Registry.

(d) Comment procedures

The Secretary shall establish and provide information to the public on procedures, which may include establishment of a policy advisory committee, under which the Secretary shall receive and consider comments from interested persons relating to the manner in which the Registry is carrying out the duties of the Registry under subsection (b) of this section and complying with the criteria, standards, and procedures described in subsection (c) of this section.

(e) Consultation

The Secretary shall consult with the board of directors of the Registry and the bone marrow donor program of the Department of the Navy in developing policies affecting the Registry.

(f) Application

Entities eligible to receive a contract under this section shall include private nonprofit entities.

(h) Records

(1) Recordkeeping

Each recipient of a contract or subcontract under subsection (a) of this section shall keep such records as the Secretary shall prescribe, including records that fully disclose the amount and disposition by the recipient of the proceeds of the contract, the total cost of the undertaking in connection with which the contract was made, and the amount of the portion of the cost of the undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(2) Examination of records

The Secretary and the Comptroller General of the United States shall have access to any books, documents, papers, and records of the recipient of a contract or subcontract entered into under this section that are pertinent to the contract, for the purpose of conducting audits and examinations.

(i) Penalties for disclosure

Any person who discloses the content of any record referred to in subsection (c)(5)(A) of this section without the prior written consent of the donor or potential donor with respect to whom the record is maintained, or in violation of the standards described in subsection (c)(5)(B) of this section, shall be imprisoned for not more than 2 years or fined in accordance with title 18, or both.

PART [1] M—NATIONAL PROGRAM OF CANCER REGISTRIES

§ 280e. National program of cancer registries

(a) In general

The Secretary, acting through the Director of the Centers for Disease Control, may make grants to States, or may make grants or enter into contracts with academic or nonprofit organizations designated by the State to operate the State's cancer registry in lieu of making a grant directly to the State, to support the operation of population-based, statewide cancer registries in order to collect, for each form of in-situ and invasive cancer (with the exception of basal cell and squamous cell carcinoma of the skin), data concerning—

(1) demographic information about each case of cancer;

(2) information on the industrial or occupational history of the individuals with the cancers, to the extent such information is available from the same record;

(3) administrative information, including date of diagnosis and source of information;

(4) pathological data characterizing the cancer, including the cancer site, stage of disease (pursuant to Staging Guide), incidence, and type of treatment; and

(5) other elements determined appropriate by the Secretary.

(b) Matching funds

(1) In general

The Secretary may make a grant under subsection (a) of this section only if the State, or the academic or nonprofit private organization designated by the State to operate the cancer registry of the State, involved agrees, with respect to the costs of the program, to make available (directly or through donations from public or private entities) non-Federal contributions toward such costs in an amount that is not less than 25 percent of such costs or $1 for every $3 of Federal funds provided in the grant.

(2) Determination of amount of non-Federal contribution; maintenance of effort

(A) Non-Federal contributions required in paragraph (1) may be in cash or in kind, fairly evaluated, including plant, equipment, or services. Amounts provided by the Federal Government, or services assisted or subsidized to any significant extent by the Federal Government, may not be included in determining the amount of such non-Federal contributions.

(B) With respect to a State in which the purpose described in subsection (a) of this section is to be carried out, the Secretary, in making a determination of the amount of non-Federal contributions provided under paragraph (1), may include only such contributions as are in excess of the amount of such contributions made by the State toward the collection of data on cancer for the fiscal year preceding the first year for which a grant under subsection (a) of this section is made with respect to the State. The Secretary may decrease the amount of non-Federal contributions that otherwise would have been required by this subsection in those cases in which the State can demonstrate that decreasing such amount is appropriate because of financial hardship.

(c) Eligibility for grants

(1) In general

No grant shall be made by the Secretary under subsection (a) of this section unless an application has been submitted to, and approved by, the Secretary. Such application shall be in such form, submitted in such a manner, and be accompanied by such information, as the Secretary may specify. No such application may be approved unless it contains assurances that the applicant will use the funds provided only for the purposes specified in the approved application and in accordance with the requirements of this section, that the application will establish such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement and accounting of Federal funds paid to the applicant under subsection (a) of this section, and that the applicant will comply with the peer review requirements under sections 289 and 289a of this title.

(2) Assurances

Each applicant, prior to receiving Federal funds under subsection (a) of this section, shall provide assurances satisfactory to the Secretary that the applicant will—

(A) provide for the establishment of a registry in accordance with subsection (a) of this section;

(B) comply with appropriate standards of completeness, timeliness, and quality of population-based cancer registry data;

(C) provide for the annual publication of reports of cancer data under subsection (a) of this section; and

(D) provide for the authorization under State law of the statewide cancer registry, including promulgation of regulations providing—

(i) a means to assure complete reporting of cancer cases (as described in subsection (a) of this section) to the statewide cancer registry by hospitals or other facilities providing screening, diagnostic or therapeutic services to patients with respect to cancer;

(ii) a means to assure the complete reporting of cancer cases (as defined in subsection (a) of this section) to the statewide cancer registry by physicians, surgeons, and all other health care practitioners diagnosing or providing treatment for cancer patients, except for cases directly referred to or previously admitted to a hospital or other facility providing screening, diagnostic or therapeutic services to patients in that State and reported by those facilities;

(iii) a means for the statewide cancer registry to access all records of physicians and surgeons, hospitals, outpatient clinics, nursing homes, and all other facilities, individuals, or agencies providing such serv-

ices to patients which would identify cases of cancer or would establish characteristics of the cancer, treatment of the cancer, or medical status of any identified patient;

(iv) for the reporting of cancer case data to the statewide cancer registry in such a format, with such data elements, and in accordance with such standards of quality timeliness and completeness, as may be established by the Secretary;

(v) for the protection of the confidentiality of all cancer case data reported to the statewide cancer registry, including a prohibition on disclosure to any person of information reported to the statewide cancer registry that identifies, or could lead to the identification of, an individual cancer patient, except for disclosure to other State cancer registries and local and State health officers;

(vi) for a means by which confidential case data may in accordance with State law be disclosed to cancer researchers for the purposes of cancer prevention, control and research;

(vii) for the authorization or the conduct, by the statewide cancer registry or other persons and organizations, of studies utilizing statewide cancer registry data, including studies of the sources and causes of cancer, evaluations of the cost, quality, efficacy, and appropriateness of diagnostic, therapeutic, rehabilitative, and preventative services and programs relating to cancer, and any other clinical, epidemiological, or other cancer research; and

(viii) for protection for individuals complying with the law, including provisions specifying that no person shall be held liable in any civil action with respect to a cancer case report provided to the statewide cancer registry, or with respect to access to cancer case information provided to the statewide cancer registry.

(d) Relationship to certain programs

(1) In general

This section may not be construed to act as a replacement for or diminishment of the program carried out by the Director of the National Cancer Institute and designated by such Director as the Surveillance, Epidemiology, and End Results Program (SEER).

(2) Supplanting of activities

In areas where both such programs exist, the Secretary shall ensure that SEER support is not supplanted and that any additional activities are consistent with the guidelines provided for in subsection (c)(2)(C) and (D) of this section and are appropriately coordinated with the existing SEER program.

(3) Transfer of responsibility

The Secretary may not transfer administration responsibility for such SEER program from such Director.

(4) Coordination

To encourage the greatest possible efficiency and effectiveness of Federally supported efforts with respect to the activities described in this subsection, the Secretary shall take steps to assure the appropriate coordination of programs supported under this part with existing Federally supported cancer registry programs.

(e) Requirement regarding certain study on breast cancer

In the case of a grant under subsection (a) of this section to any State specified in section 280e–3(b) of this title, the Secretary may establish such conditions regarding the receipt of the grant as the Secretary determines are necessary to facilitate the collection of data for the study carried out under section 399C.[1]

''(1) cancer control efforts, including prevention and early detection, are best addressed locally by State health departments that can identify unique needs;

''(2) cancer control programs and existing statewide population-based cancer registries have identified cancer incidence and cancer mortality rates that indicate the burden of cancer for Americans is substantial and varies widely by geographic location and by ethnicity;

''(3) statewide cancer incidence and cancer mortality data, can be used to identify cancer trends, patterns, and variation for directing cancer control intervention;

''(4) the American Association of Central Cancer Registries (AACCR) cites that of the 50 States, approximately 38 have established cancer registries, many are not statewide and 10 have no cancer registry; and
